Subject: Lok Sabha PQ dy.no. 1880 for 04.02.2026.

Sir,

Kindly find the attached Lok Sabha provisionally admitted question Unstarred Dy. No.1880 to be answered on 04.02.2026 regarding "Green Energy Corridor".

2. In this regard, NISE and SCGJ are requested to furnish your inputs for particularly point (e) for drafting reply by **5 pm today positively i.e. 29.01.2026**.

Regards,

HRD Division
Ministry of New and Renewable Energy

Ministry: New and Renewable Energy

Sitting on:04/02/2026

Unstarred Diary no. 1880

(e) the steps taken by the Government to train the local youth as 'Suryamitra' for the installation and maintenance of renewable energy systems?

Suryamitra Skill Development Programme (Solar PV Installer)

The **Suryamitra Skill Development Programme**, launched by the Ministry of New & Renewable Energy (MNRE) in 2015, is a flagship initiative designed to address the skill gap in the renewable energy sector, particularly in solar PV technologies. By providing comprehensive training in system design, installation, operation, maintenance, and repair of both ground-mounted and rooftop solar PV systems, **the programme ensures the availability of a skilled workforce capable of delivering high-quality workmanship and ensuring robust quality assurance across solar installations nationwide.**

MNRE has designated the **National Institute of Solar Energy (NISE)** as the nodal agency for coordinating and implementing the programme. This collaboration supports structured, industry-oriented training aligned with the needs of India's rapidly expanding solar energy sector. Under this initiative, MNRE set a target of **50,000 trainees in Phase I (2015–2020)** and **20,000 trainees in Phase II (2021–26).**

Through a decentralized network of Training Centres, the programme has significantly expanded its outreach to rural and semi-urban communities, enabling greater participation in the renewable energy transition. Currently operational across **30 states**, the programme is progressing toward achieving its Phase II targets for **FY 2021–26**. Training activities are being carried out through 551 NISE-empanelled Training Centres (list attached in Annexure-I), accredited through a transparent evaluation process. The programme plays a vital role in contributing to India's renewable energy goals, including the target of achieving **280 GW of solar power capacity by 2030** and supporting national **net-zero commitments**.

Achievements of the Suryamitra Programme (as of December 31, 2025)

- **Total Trained Suryamitras:**
A total of **66,351 candidates** have successfully completed the Suryamitra training programme, including **14,821 trainees** trained under Phase II targets.
- **Placement Success:**
33,705 Suryamitras have secured employment in the solar sector, reflecting the programme's strong impact on workforce development and job creation.
- **Nationwide Reach:**
Training has been delivered through an extensive network of Training Partner Centres across the country, ensuring wide accessibility, regional representation, and inclusive participation.

NOTE: This list only informs about the training centres empanelled for Suryamitra skill development programme for FY 2023-24 and FY 2024-25. Training centre shall not consider this as approval for conducting the Suryamitra programme. A separate letter will be issued by NISE for allocating the Suryamitra Skill Development Programme to training centre (s) for corresponding Financial Year. The allocation will be based on the approval of number of participants to be trained under the program from Ministry of New and Renewable Energy and the corresponding rank of the training centre in the state.

Issued with the approval of the Competent Authority.

Sincerely
- Sd-
Suryamitra Skill Development Division
National Institute of Solar Energy

LSUQ_11.03.2026_NISE.docx (17.4 kB)

Lok Sabha Unstarred Question Dy. No. 9925 to be put up for 11.03.2026

Inputs from National Institute of Solar Energy (NISE),
Control Organization: Ministry of New and Renewable Energy (MNRE)

International Cooperation in Green Energy Projects

a) the details of green energy projects currently underway in various States of the country particularly in the Union Territory of Dadra Nagar Haveli;

No input.

(b) the details of capacity augmentation, State-wise;

No input.

(c) the details of nature of international cooperation in the field of solar and wind energy;

Input from NISE:

NISE-PTB collaboration: Under the umbrella of Indo-German Cooperation, NISE and PTB Germany are implementing the project "Strengthening of Quality Infrastructure for the Solar Industry" for fostering the quality infrastructure to assure the quality, performance and safety of solar PV systems. Broad objective of the cooperation is to "Develop the quality infrastructure (QI) services needed by the photovoltaic sector in India and support the use of the services for assuring the quality and reliability of solar photovoltaic systems."

The specific activities under the cooperation are given below:

- Strengthen the capacities of the organizations of the quality infrastructure, amongst others
- Include quality criteria in standardization/accreditation
- Support the collaboration between the quality infrastructure and the photovoltaic sector, amongst others

Already two phases of the project have been completed and third phase is going to start. Proposal for the third phase has been cleared by the screening committee in DEA. Formal letter of approval is awaited.

An update on major key activities performed under this project in the second phase are provided below:

| Key activity | Status |
|----------------------------------|---|
| Support in Conformity Assessment | <ul style="list-style-type: none">• Workshop organized for testing of PV module, PV power plant• Training of lab personnel• Round robin testing of inverter |

| | |
|---|--|
| Calibration Activity | <ul style="list-style-type: none"> • Round Robin of cells has been initiated with involvement of NISE, IIT Bombay, and NPL, New Delhi. The cells provided by Fraunhofer ISE. • For PV modules, Round Robin has been initiated by NISE. Other labs involved in round robin are Fraunhofer ISE, IIT Bombay, and CPRI Bengaluru. • PTB has supported NISE on know-how for indoor calibration of pyranometers |
| Proficiency Test | <ul style="list-style-type: none"> • PTB is supporting NISE in providing expertise from IFM Australia in developing NISE as a PT Provider for module testing in India. |
| Quality Control Mechanism | <ul style="list-style-type: none"> • PTB supported in Development of a checklist for PV Power plant analysis to be used by IREDA. Pilot Testing with IREDA, SECI, NISE and other private labs has been completed. |
| Accreditation | <ul style="list-style-type: none"> • PTB has organized training to NABL staff & NABL assessors on ISO 17025 and also the training of trainers to NABL Training Dept. (Training by UK accreditation body: UKAS) |
| Lab Network | <ul style="list-style-type: none"> • PTB and NISE jointly established a network of labs to provide a platform to all the solar PV labs to raise common issues. Frequent Lab network meeting are being organized under the leadership of NISE to discuss different issues of the testing labs. |
| Establishment of test facility for reliability testing of battery | <ul style="list-style-type: none"> • NISE and PTB jointly work on to establish a test facility for reliability testing of battery at NISE |

(d) the details of financing pattern for solar parks; and

No input.

(e) the details of challenges being faced in grid integration?

No input.

Lok Sabha Unstarred Question (Dy. No. 14100) to be put up for 20.08.2025

Inputs from National Institute of Solar Energy (NISE),
Control Organization: Ministry of New and Renewable Energy (MNRE)

Question (a) The details of objectives and capabilities of the new PV Module Testing and Calibration Lab at National Institute of Solar Energy (NISE);

Inputs for (a):

1. Objective of the PV module testing and calibration laboratory

The primary objective of the NISE test facility is to conduct testing of photovoltaic (PV) modules and issuing reports in accordance with various Indian and international standards. The facility supports Indian PV module manufacturers, contributes to revenue generation of NISE, provides technical inputs to the Ministry of New and Renewable Energy (MNRE) for quality control measures, and facilitates testing under the Production Linked Incentive (PLI) scheme. The laboratory also develops testing standards for the product related to PV module, where there is no national and international standard available also give input to BIS for formulization of different Indian standards. The laboratory operates in compliance with ISO/IEC 17025:2017 and is recognized as a Type 2 laboratory under the Bureau of Indian Standards (BIS).

2. At present, the NABL accreditation process of the lab is going on. The lab is offering testing and calibration for following standards:

| Standard No. | Details |
|---|--|
| IEC 61215-1-1: 2021/ IS 14286-1-1: 2023 | Terrestrial photovoltaic (PV) modules - Design qualification and type approval - Part 1-1: Special requirements for testing of crystalline silicon photovoltaic (PV) modules |
| IEC 61215-1-2: 2021/ IS 14286-1-2: 2023 | Terrestrial photovoltaic (PV) modules - Design qualification and type approval - Part 1-2: Special requirements for testing of thin-film Cadmium Telluride (CdTe) based photovoltaic (PV) modules |
| IEC 61215-1-3: 2021/ IS 14286-1-3: 2023 | Terrestrial photovoltaic (PV) modules - Design qualification and type approval - Part 1-3: Special requirements for testing of thin-film amorphous silicon based photovoltaic (PV) modules |
| IEC 61215-1-4: 2021/ IS 14286-1-4: 2023 | Terrestrial photovoltaic (PV) modules - Design qualification and type approval - Part 1-4: Special requirements for testing of thin-film Cu (In,Ga)(S,Se) ₂ based photovoltaic (PV) modules |
| IS/IEC 61730-1:2023 | Photovoltaic (PV) module safety qualification - Part 1: Requirements for construction |
| IS/IEC 61730-1:2023 | Photovoltaic (PV) module safety qualification - Part 2: Requirements for testing |
| IEC 61701:2020 | Salt mist corrosion testing of photovoltaic (PV) modules |
| IEC 61853-1: 2011 | Photovoltaic (PV) module performance testing and energy rating - Part 1: Irradiance and temperature performance measurements and power rating |

| | |
|---|--|
| IEC 61853-2: 2016 (spectral response only for solar cell or representative module) | Photovoltaic (PV) module performance testing and energy rating - Part 2: Spectral responsivity, incidence angle and module operating temperature measurements. |
| IEC 61853-3:2018 | Photovoltaic (PV) module performance testing and energy rating - Part 3: Energy rating of PV modules. |
| IEC 61853-4:2018 | Photovoltaic (PV) module performance testing and energy rating - Part 4: Standard reference climatic profiles. |
| IEC TS 62804-1:2015 | Photovoltaic (PV) modules - Test methods for the detection of potential-induced degradation - Part 1: Crystalline silicon |
| IEC TS 60904-1-2:2024 | Photovoltaic devices - Part 1-2: Measurement of current-voltage characteristics of bifacial photovoltaic (PV) devices |
| IEC 60904 | Reference Module calibration: c-Si reference module calibration up to the size 700 Wp |
| In-house test procedure | Testing of PV Module cleaning devices as per Test procedure developed by NISE |
| IEC 60904-9: 2020 | Solar simulator characterization/calibration |
| IEC TS 63342:2022 | C-Si photovoltaic (PV) modules - Light and elevated temperature induced degradation (LETID) test - Detection |
| IEC 63202-1:2019 (module also) | Photovoltaic cells - Part 1: Measurement of light-induced degradation of crystalline silicon photovoltaic cells |
| IEC TS 62782:2016 | Photovoltaic (PV) modules - Cyclic (dynamic) mechanical load testing |
| In-house test procedure | Testing as per customer requirement for different products related to solar PV: Nano-coating, Quantum boost device |
| In-house test procedure | Long term field exposure test of PV modules |
| In-house test procedure | Qualification plus testing, Bankability testing of PV module in the lab as per customer requirement |

Question (b) The manner in which NISE supports domestic solar manufacturing under the Productive Linked Incentive (PLI) scheme through Bureau of Indian Standards (BIS)-compliant testing and certification of emerging solar technologies;

Inputs for (b):

Solar Energy Corporation of India (SECI) is the implementing agency for Setting up Manufacturing Capacities for High Efficiency Solar PV Modules in India under the Production Linked Incentive (PLI) Scheme (Tranche-II). NISE extends technical support to SECI for qualitative & testing requirements under the PLI Scheme as required for disbursement of PLI. In this aspect, the role of NISE includes conducting commissioning checks and throughput assessment at the manufacturing facilities, as well as testing of module efficiency and temperature coefficient as per relevant BIS standards.

Question (c) The details of increase in India's installed solar capacity and indigenous manufacturing since 2014 along with the targets set for the year 2030;

Inputs for (c): Nil.

Question (d) The details of NISE's workforce development initiatives, including the number of Suryamitras trained so far.

Inputs for (d):

Workforce Development Initiatives of NISE are detailed below

1. Suryamitra Skill Development Programme:

Launched in 2015, the Suryamitra Skill Development Programme is a flagship initiative of the Ministry of New and Renewable Energy (MNRE), designed to develop a skilled workforce for the installation, operation, commissioning, and maintenance of solar power projects. The programme plays a key role in supporting India's goal of achieving 280 GW of solar power capacity by 2030.

MNRE has appointed the National Institute of Solar Energy (NISE) as the nodal agency for coordinating and implementing the programme through a nationwide network of Empanelled Training Centres (ETCs).

2. Skilling Programmes under the Capacity Building Component of PM-Surya Ghar: Muft Bijli Yojana

To address the growing demand for a skilled solar workforce, NISE has developed three specialized Upskilling/Reskilling training modules, which are being implemented through the Suryamitra Empanelled Training Centres.:

- I. Solar PV Installer – 60 hours (7 days)**
- II. Rooftop Solar Supervisor – 32 hours (4 days)**
- III. On-the-Job Training (OJT) for Trained Installers/Suryamitras – 40 hours (5 days)**

Details of Suryamitras Trained.

| Sl. No. | State | Total No. of Suryamitra Trained |

LSQ Dy no. 1695_04.02.2026_NISE.docx (19.1 kB)

Lok Sabha Starred Question Diary no. 1695 due for 04.02.2026

Inputs from National Institute of Solar Energy (NISE),
Control Organization: Ministry of New and Renewable Energy (MNRE)

(a) whether any assessment has been made on the potential of solar, wind or bio-energy in the Banda–Chitrakoot region of Uttar Pradesh;

National Institute of Solar Energy (NISE) has carried out a district-wise assessment of ground-mounted solar power potential for India in 2025. Based on this assessment, the estimated solar power potential of the Banda–Chitrakoot region is as follows:

- Banda district: 754.05 MW
- Chitrakoot district: 776.25 MW

(b) whether any proposal is under consideration for setting up of renewable energy projects in the said area; and

(c) if so, the details thereof;

No input.

(d) whether any assessment has been made by the Government on the possible impact of this on availability of energy and employment; and

(e) if so, the details thereof and if not, the reasons therefor?

No input.

Lok Sabha Starred Question Diary no. 2029 due for 11.02.2026

Inputs from National Institute of Solar Energy (NISE),
Control Organization: Ministry of New and Renewable Energy (MNRE)

Renewable Energy Potential in Uttar Pradesh

Will the Minister of NEW AND RENEWABLE ENERGY be pleased to state:

(a) whether the Government has conducted any assessment of the potential and present coverage of solar energy, biogas and other renewable energy sources in Budaun district of Uttar Pradesh particularly in agriculture and animal husbandry dependent rural areas and semi-urban areas;

(b) if so, the details thereof and if not, the reasons therefor; and

Reply to (a) and (b): National Institute of Solar Energy (NISE) has assessed the ground mounted solar potential of Budaun district in Uttar Pradesh. As per the assessment, the estimated solar potential in the district is 662.10 MW based on the availability of wasteland.

(c) the details of programmes promoted by the Government aiming to promote adoption of renewable energy systems, improve affordability for domestic consumers and small industries, support decentralized energy systems and reduce dependency on traditional energy sources?

Reply: No input.

Lok sabha US No.2117.pdf (719 kB)

PROVISIONALLY ADMITTED QUESTION FOR THE LOKSABHA

Starred /Unstarred Diary no. 2117

(a) whether the Government has taken any steps to promote solar-based livelihoods for women in tribal intensive districts IJke Rajsamand, Jaisalmer; and

By decentralizing the training infrastructure, the Suryamitra skill development programme has effectively extended its reach to rural and semi-urban areas, fostering grassroots participation in the clean energy transition.

Inclusion of Women and Rural Youth:

NISE actively guides training centres in the selection of candidates, with a strong focus on promoting the inclusion of rural youth, women, and individuals from Scheduled Castes (SC) and Scheduled Tribes (ST). This inclusive strategy ensures equitable access to skill development opportunities and contributes to building a diverse and representative workforce in the renewable energy sector.

(b) If so, the details of outcomes achieved under such initiatives during the last three years?

Details of Scheduled Tribe (ST) candidates trained in Rajasthan.

| FY | ST | |
|---------|-----|-------|
| | Men | Women |
| 2015-16 | 01 | |

Reply to Lok Sabha Question Dy.3533 for 11.08.2025.docx (19.3 kB)

PROVISIONALLY ADMITTED QUESTION FOR THE LOKSABHA

Starred /Unstarred Diary no. 3533

(d) the details of the utilisation of funds released under the scheme during the last three financial years, State and Joint Solar Energy Scheme-wise; and

The Ministry of New and Renewable Energy (MNRE) has designated the **National Institute of Solar Energy (NISE)** as the nodal agency for coordinating and implementing the **Suryamitra Skill Development Programme** through a nationwide network of **Empanelled Training Centres**, to address the skill gap in the renewable energy sector, particularly in solar photovoltaic (PV) systems. By focusing on training technicians for system design, installation, operation, maintenance and repair of solar photovoltaic (PV) systems at grass root level.

| FY | With Respect to Training | With Respect to Placement | Fund Received | Actual Fund Expenditure |
|----------------|---------------------------------|----------------------------------|---|--------------------------------|
| 2022-23 | 1556 | 1497 | Rs. 2,24,51,469/- (Opening Balance) + Rs. 06,50,88,740/- | Rs. 07,12,52,533/- |
| 2023-24 | 1953 | 810 | Rs. 1,32,45,158/- (Opening Balance) + Rs. 15,07,36,060/- | Rs. 8,52,65,322/- |
| 2024-25 | 4081 | 2866 | Rs. 21,76,59,159/- | Rs. 21,76,59,159/- |

(e) the mechanism in place to ensure transparent and efficient utilisation of funds by Non-Governmental Organisations under the Joint Solar Energy Scheme which are often run and action taken against cases of non -utilisation or misutilisation?

As per the sanction received from the Ministry of New and Renewable Energy (MNRE) for the implementation of the Suryamitra Skill Development Programme, the National Institute of Solar Energy (NISE) invites Expressions of Interest (EoI) from eligible Training Partners for empanelment of Training Centers (TCs) across the country. The minimum essential criteria for eligibility are as follows:

Minimum Essential Criteria for Training Centers:

1. Type of Institution:

The Training Center must be an Institute/Engineering College/Polytechnic College/ITI/NGO/Pradhan Mantri Kaushal Kendra (PMKK), or any other affiliated skill development center with appropriate infrastructure as per the Qualification Pack (QP) SGJ/Q0101 – Solar PV Installer.

2. Experience:

The Training Center must have prior training experience in renewable energy, specifically in solar energy.

3. Industry Tie-up:

The Training Center must have at least one valid Memorandum of Understanding (MoU) or formal tie-up with an industry partner for providing industrial on-the-job training.

4. Affiliation:

The Training Center must hold a valid center affiliation from the National Skill Development Corporation (NSDC) to conduct training as per the QP SGJ/Q0101 – Solar PV Installer.

5. Qualified Trainers:

Each center must have a minimum of two trainers, with at least one certified as a Trainer of Trainer (ToT) by the Sector Skill Council – Green Jobs (SCGJ), qualified to conduct solar training as per the relevant QP.

Evaluation Process:

A **Technical Evaluation Committee (TEC)**, duly approved by the competent authority at NISE, will evaluate all EoI submissions. The evaluation will be based on a **technical scoring criteria**, and TCs will be empanelled accordingly.

Financials and Payment Terms:

The financial norms and payment structure shall be in accordance with the guidelines issued by the **Ministry of Skill Development and Entrepreneurship (MSDE)** and as per the **sanction letter received from MNRE**.

The payment to empanelled TCs shall follow the below Installment structure, as per **MSDE Gazette Notification dated 11th November 2020**:

| Installment | % of Installment of batch | Milestone |
|--|---------------------------|--|
| 1st Installment | 30% | Upon commencement of training, against submission of a Bank Guarantee (BG) equivalent to 30% of the total fund value. |
| 2 nd Installment | 40% | Upon successful certification of candidates (Payment will be made for the number of certified candidates, after adjusting the 1st Installment). |
| 3 rd Installment | 30% | Upon verified employment of at least 70% of certified candidates (continuous employment for 3 months, verified as per standard placement norms). |
| Note: No fund shall be released for dropout and failed candidates | | |

Non-Utilisation or Misutilisation of Funds:

At present, there are no reported cases of non-utilisation or misutilisation of funds under the Suryamitra Skill Development Programme.

Sir/Madam,

I am directed to reproduce Rajya Sabha Starred Question Diary no. 5264 due for 05.08.2025. It is requested to kindly provide the reply latest by 28.07.2025.

Promoting Renewable Energy in Bihar

- (a) what is the progress on off-grid solar and mini-grid electrification projects aimed at powering remote and unelectrified habitations in Bihar;
- (b) what plans are in place to promote rooftop solar installations for rural public buildings such as panchayat offices, schools, and health sub-centers in Bihar; and
- (c) how is the Ministry supporting skill development and employment for local youth in Bihar in solar installation, maintenance, and green energy service sectors?

Regards...

Ms. Seema Srivastava,
Under Secretary,
Ministry of New and Renewable Energy,

Reply to Rajya Sabha Question Dy.5264 for 05.08.2025.docx (17.3 kB)

PROVISIONALLY ADMITTED QUESTION FOR THE RAJYA SABHA

Starred /Unstarred Diary no. 5264

Promoting Renewable Energy in Bihar

(c) how is the Ministry supporting skill development and employment for local youth in Bihar in solar installation, maintenance, and green energy service sectors?

The Ministry of New and Renewable Energy (MNRE) has designated the National Institute of Solar Energy (NISE) as the nodal agency for coordinating and implementing the following skill development programmes through a nationwide network of Empanelled Training Centres, aimed at facilitating employment opportunities for local youth in Solar Sector:

1. Suryamitra Skill Development Programme

The Suryamitra Skill Development Programme is a commendable initiative by the Ministry of New and Renewable Energy (MNRE) in 2015 to address the skill gap in the renewable energy sector, particularly in solar photovoltaic (PV) systems. By focusing on training technicians for system design, installation, operation, maintenance and repair of solar photovoltaic (PV) systems at grass root level.

2. Skilling Programmes under the Capacity Building Component of PM-Surya Ghar: Muft Bijli Yojana

To address the growing demand for a skilled solar workforce, NISE has developed three specialized Upskilling/Reskilling training modules, which are being implementing through the Suryamitra Empanelled Training Centres.

- Solar PV Installer – 60 hours (7 days)
- Rooftop Solar Supervisor – 32 hours (4 days)
- On-the-Job Training (OJT) for Trained Installers/Suryamitras – 40 hours (5 days)

Details of Training and Employment provided under the Suryamitra Skill Development Programme in the Solar Sector in Bihar State.

| Sl. No. | State | Total No. of Suryamitra Trained | Total No. of Suryamitra Placed |
|---------|-------|---------------------------------|--------------------------------|

LSQ Diary no. 15162_25.03.2026_NISE.docx (16.3 kB)

Lok Sabha Starred Question Diary no. 15162 due for 25.03.2026

Inputs from National Institute of Solar Energy (NISE),
Control Organization: Ministry of New and Renewable Energy (MNRE)

Mapping of Renewable Energy Potential

- (a) whether the Government has undertaken or supported any initiative to assess and map the renewable energy potential on Government and public land parcels situated along expressways and National Highway corridors and if so, the details thereof;**

No input.

- (b) whether any coordination mechanism is in place with the Ministry of Road Transport and Highways (MoRTH) or the National Highways Authority of India (NHAI) for joint utilisation of available Right of Way (RoW) or adjacent land for installation of solar, wind or hybrid renewable energy systems and if so, the details thereof; and**

Input for (b): With respect to installation of PV along the medians of highway, NISE's team together with NHAI team has assessed a potential site at Delhi-Mumbai Expressway. Based on the site visit and pre-feasibility assessment, NISE has submitted a proposal to NHAI for Pilot Solar PV Installation (100kWp) on Median of National Highway NE 4 (Delhi-Mumbai Expressway).

- (c) Whether the Government proposes to formulate a national framework or policy guidelines for integrating renewable energy infrastructure into future highway development projects and if so, the details thereof**

No input.

Sir,

Reference to trailing mail, input from NISE for point (b) is given below:

Input for point (b):

The National Institute of Solar Energy (NISE) has conducted a comprehensive assessment of ground-mounted solar potential in India, estimating it at **3343.37 GWp**. This assessment provides accurate, high-resolution data on solar irradiance and resource availability, thereby equipping state policymakers and planners with a robust evidence base for decision-making. Such scientifically derived insights enable the identification of optimal locations and appropriate scaling of solar projects, ultimately facilitating the maximization of energy generation and enhancing the efficiency of solar deployment strategies.

Subject: Inputs for Provisionally Admitted Lok Sabha Starred Question Diary no. 15288 due for 25.03.2026

Sir/Madam,

Reference trailing mail vide which it was requested to provide inputs on the subject Parliament Question by 18.03.2026. However, no inputs have been received.

It is requested to provide the inputs on the subject Parliament Question, which is reproduced below, by 19.03.2026 forenoon.

Solar Energy Potential

- (a) whether the Government agrees with the view that while a complete coal phase-out is not an immediate option for a developing country like India, the solar energy potential of India is immense due to its strategic geographical location; and
- (b) if so, the details of initiatives have been taken/proposed to be taken by the Government to increase the production of solar energy keeping in view the fact that India receives over 300 days of sunshine every year on an average and has access to about five thousand trillion kWh of solar energy which is more than the energy generated by the total output of all the oil and coal reserves in the country?

Regards..

Deepak Khatwani,
Under Secretary (National Solar Mission)

Reply to Lok Sabha Question (D.No 16206 (Revised 1))_NISE_YS.docx (32.7 kB)

Reply to Lok Sabha Question (D.No 16206 (Revised 1))

- (a) whether the Government has taken any steps to align skilling programmes with industry demand and emerging sectors such as electronics, renewable energy, logistics and Micro, Small and Medium Enterprises (MSMEs) in Andhra Pradesh particularly in Anakapalli;

Reply: Details of Training programme/schemes implemented by NISE

1. Suryamitra Skill Development Programme

The **Suryamitra Skill Development Programme (SSDP)** is a 600-hour, three-month residential training initiative of the Ministry of New and Renewable Energy (MNRE), implemented by the National Institute of Solar Energy (NISE). The aim of the Suryamitra training programme is to prepare youth for roles in the installation, operation, and maintenance of solar energy projects. During Phase-I of the Programme (2015–2020), MNRE approved a cumulative training target of 50,000 candidates. To achieve this target, sanction orders were issued for 57,460 Suryamitras. Against these sanctioned numbers, a total of 47,166 candidates were successfully trained during Phase-I. Under Phase-II of the Programme (2021–26), MNRE approved a cumulative training target of 20,000 candidates.

| SI No | Name of training Program | Duration | NSQF Level |
|-------|---|--|------------|
| 1. | Solar PV Installer (Suryamitra) (Residential) | 90 days / 600 Hrs (includes 15 days OJT) | 4.0 |

2. Varunmitra Skill Development Programme

The **Varuna Mitra Skill Development Programme** is a 21-day, 120-hour residential training program initiative by the Ministry of New and Renewable Energy (MNRE) and implemented by National Institute of Solar Energy. The training is designed to train youth in the installation, operation, and maintenance of solar water pumping systems.

3. PM Surya Ghar: Muft Bijli Yojana

The Government of India approved PM Surya Ghar: Muft Bijli Yojana on 29 February 2024 to accelerate rooftop solar adoption and enable households to generate their own electricity. Ministry of New Renewable Energy (MNRE) has given target to National Institute of Solar Energy (NISE) to train around 20,000 Solar PV Installer/Technicians under PM Surya Ghar Muft Bijali Yojana MNRE's Skilling Initiative Programme to equip individuals with the skills to safely and efficiently install solar PV systems. **The scheme has been implemented through pan India from October 2024.**

Currently NISE is implementing the following component under the PM Surya Ghar:

| Sl No | Name of training Program | Duration | NSQF Level |
|-------|---|---|------------|
| 1. | Training of Solar PV Installer/Engineers/Technician (Non-residential) | 1 week / 7 days / 60 Hrs (5 day/45 hr Class Room Teaching and Practical Activity 2 day/15 hr OJT) | 4.0 |

(b) if so, whether any industry-linked skilling hubs or Centres of Excellence have been established or to be established in coastal area of Andhra Pradesh; and

Reply: NISE has not established any skilling hubs or Centres of Excellence in Andhra Pradesh. However, the Suryamitra training programmes are being implemented through empanelled Training Partners. The details of the Training Partners are as follows:

| S.No | Training Partner | Centre Name | Sanction Year | Address | City |
|------|-----------------------------|---|---------------|--|---------------|
| 1. | Datapro Computers Pvt. Ltd. | Datapro Gajuwaka | 2024-2025 | D.No.6-60-8/2/2, Sramika Nagar, Beside MVR Degree College, Chingantyada, Old Gajuwaka VSP-530026. | Visakhapatnam |
| 2. | Datapro Computers Pvt. Ltd. | Datapro Computers pvt Ltd dwaraka nagar | 2024-2025 | datapro computers pvt ltd 47-9-10,2nd floor,subhadra complex,Nr.Diamond park,3rd lane,DWARAKANAGAR, VISAKHAPATNAM-530016 | Visakhapatnam |

| | | | | | |
|----|---|---|-----------|---|---------------|
| 3. | Rural Institute For Skill Empowerment Private Limited | Rural Institute For Skill Empowerment Private Limited | 2024-2025 | Plot No. 33-18-833, 2nd Floor, 5th Lane, Vasthantharaya Puram, Guntur, Andhra Pradesh - 522002 | Guntur |
| 4. | Datapro Computers Pvt. Ltd. | Datapro Dwarakanagar | 2025-2026 | 47-9-10, 2nd Floor, Subhadra Complex, 3rd Lane, Dwarakanagar-530016, Visakhapatnam | Visakhapatnam |
| 5. | Datapro Computers Pvt. Ltd. | Datapro Gajuwaka | 2025-2026 | D.No.6-60-8/2/2, Sramika Nagar, Beside MVR Degree College, Chingantyada, Old Gajuwaka VSP-530026. | Visakhapatnam |
| 6. | Surabhi Education Society | Surabhi Educational Society Veldurthy | 2025-2026 | Ramallakota Road, Veldurthy 518216 | Kurnool |

PM Surya Ghar Centers completed batches in the State of Andhra Pradesh

| S.No | Training Partner | Center Name | Sanction Year | Center City |
|------|-----------------------------|--------------|---------------|---------------|
| 1 | Datapro Computers Pvt. Ltd. | Dwarakanagar | 2024-25 | Visakhapatnam |
| 2 | Datapro Computers Pvt. Ltd. | Gajuwaka | 2024-25 | Visakhapatnam |
| 3 | Datapro Computers Pvt. Ltd. | Dwarakanagar | 2025-26 | Visakhapatnam |
| 4 | Datapro Computers Pvt. Ltd. | Gajuwaka | 2025-26 | Visakhapatnam |
| 5 | Datapro Computers Pvt. Ltd. | Dwarakanagar | 2025-26 | Visakhapatnam |
| 6 | Datapro Computers Pvt. Ltd. | Gajuwaka | 2025-26 | Visakhapatnam |

(c) if so, the details of the budgetary support provided for such initiatives during the last financial year?

Reply: In Financial Year 2024–25, an amount of Rs. 22,41,516/- was released to M/s Data Pro Computers Pvt. Ltd., and an amount of Rs. 11,41,813/- was released to M/s Rural Institute for Skill Empowerment Pvt. Ltd., as 70% payment for conducting two batches and one batch of the Suryamitra training programme, respectively.

Lok Sabha Starred Question Diary no. 17153 due for 25.03.2026

Inputs from National Institute of Solar Energy (NISE),
Control Organization: Ministry of New and Renewable Energy (MNRE)

Renewable Energy Potential in Uttar Pradesh

(a) whether the Government is aware of the untapped potential for solar and biomass energy generation in Western Uttar Pradesh; and

Input for (a): National Institute of Solar Energy (NISE) has carried out a district-wise assessment of ground-mounted solar power potential for India in 2025. Based on this assessment, the estimated solar power potential in districts of western Uttar Pradesh is as follows:

| District | Potential (MW) |
|-----------------|-----------------------|
| Agra | 2055.60 |
| Aligarh | 447.10 |
| Amroha | 490.04 |
| Baghpat | 308.08 |
| Bareilly | 732.51 |
| Bijnor | 804.65 |
| Budaun | 662.10 |
| Bulandshahr | 874.49 |
| Etah | 325.81 |
| Firozabad | 3558.04 |
| Gautambudhnagar | 1087.92 |
| Ghaziabad | 453.60 |
| Hapur | 236.87 |
| Kasganj | 252.10 |
| Mainpuri | 1076.70 |
| Meerut | 383.50 |
| Moradabad | 226.41 |
| Muzaffarnagar | 838.95 |

| | |
|--------------|--------|
| Pilibhit | 329.34 |
| Rampur | 210.38 |
| Saharanpur | 736.43 |
| Sambhal | 244.04 |
| Shahjahanpur | 758.32 |
| Shamli | 153.34 |

(b) if so, the details of steps taken to promote rooftop solar installations, solar parks and renewable energy projects in the region; and

No input.

(c) whether similar renewable energy expansion challenges exist in other States of the country; and

No input.

(d) if so, the details of national initiatives undertaken to increase the share of renewable energy in the country's total energy mix?

No input.

Madam,

Please find the reply for point (a) from NISE below:

Reply to point (a):

The Government has taken many initiatives to address the shortage of skilled professionals in India's renewable energy sector, particularly in the area of solar cell and module manufacturing, with active involvement of educational and training institutions. In this regard, National Institute of Solar Energy (NISE), an autonomous institute under the Ministry of New and Renewable Energy (MNRE), has organized a two-and-a-half-month specialized training programme aimed at upskilling students and industry professionals in the field of solar cell & module manufacturing. This programme has been designed and developed in consultation with industry experts and other relevant stakeholders to bridge the existing skill gap in the solar manufacturing industry and to align training outcomes with current and future industry requirements. Further, NISE is in the process of organizing similar training programmes in the future to strengthen human resource capacity and support the growth of domestic solar manufacturing in the country.

Lok Sabha Unstarred Question (Dy. No. 13743) to be put up for 18.03.2026

Inputs from National Institute of Solar Energy (NISE),
Control Organization: Ministry of New and Renewable Energy (MNRE)

Solar energy generation in Andhra Pradesh

(d) if so, the details thereof, along with the regions in Andhra Pradesh identified to have high irradiance, district-wise, including Eluru district; and

Eluru district was officially constituted on 4 April 2022 as part of the reorganisation of districts undertaken by the Government of Andhra Pradesh, by carving out areas from the erstwhile West Godavari district. The district-level solar potential has been assessed on the basis of the Global Horizontal Irradiance (GHI) values of the region, expressed in kWh/m²/day (Fig. 1). The Eluru district records a GHI in the range of 5.02–5.2 kWh/m²/day. The Solar Photovoltaic (SPV) potential for the erstwhile West Godavari district, particularly with respect to ground-mounted installations, is 2862.12 MWp.

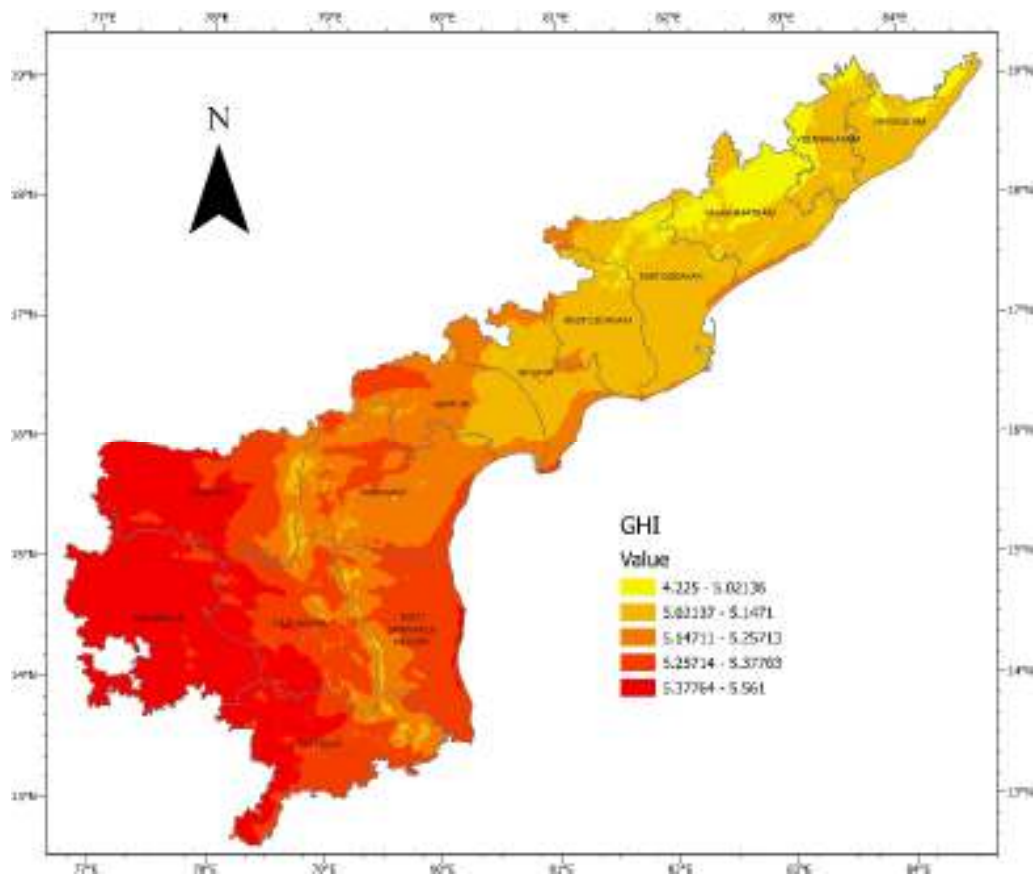

Fig. 1 GHI values in the state of Andhra Pradesh

Subject: Urgent Inputs for LOK SABHA STARRED QUESTION No. 398 TO BE ANSWERED ON 20/08/2025

Respected Madam/Sir

The undersigned is directed to refer to **Admitted Lok Sabha STARRED Question No. 398 dated 20th August, 2025 on "Research and Innovation in Renewable Energy Technologies"**. The text of the question is as under:

Will the MINISTER OF NEW & RENEWABLE ENERGY be pleased to

(a) whether the Ministry supports research and innovation in solar, wind and storage technologies and if so, the details of key institutions involved;

(b) the focus areas for next-generation clean energy development including Artificial Intelligence (AI) and automation;

(c) whether partnerships with startups, academia and international organizations are encouraged and if so, the details thereof;

(d) the manner in which skill development initiatives are being integrated into the renewable energy sector, and

(e) the manner in which these efforts enhance India's leadership in clean energy innovation and green jobs?

In view of the above question, the following is requested from the concerned Division

- i. Innovative Solar Rooftop Projects under PM Surya Ghar: Muft Bijli Yojana details; 2 page note
- ii. Circularity in Renewable Energy Technologies: Batteries and Solar Photovoltaic: Energy Storage Division 2 page note for supplementary addition.
- iii. hydrogen R&D component : 2 page note for supplementary addition.
- iv. PM Kusum component : 2 page note for supplementary addition.
- V. NISE/NIWE/NIBE; brief note of R&D being carried out

2. It is requested to furnish the part-wise reply for all above questions for framing the reply by **today evening**.

Thanks & Regards,

Dr. Anil Kumar
Director/Scientist-E
Ministry of New & Renewable Energy,
Atal Akshay Urja Bhawan, CGO Complex
Lodi Road, New Delhi - 110003.

Note_R&D_NISE_14.08.2025.docx (28.8 kB)

Brief note on R&D being carried out in NISE

NISE has taken up R&D activities in various Solar Energy technologies through in-house, externally funded and collaborative projects. These projects are identified in line with the mandate of NISE and having current relevance in catering the changing needs of the energy sector. Key R&D projects undertaken by NISE in last 5 years are briefly summarized below:

| S. No. | Project name & brief description |
|---------------|---|
| 1. | Project-1: Comprehensive Ground mounted and floating Solar PV Potential Assessment for India NISE has assessed India's solar potential through a comprehensive, data-driven approach laying the groundwork for strategic solar energy deployment across both ground-mounted and floating solar domains. |
| 2. | Project-2: Design & Development of Large Area Secondary Reference Solar Cell (DST funded) This project focuses on the design and performance enhancement of large-area secondary reference solar cells essential for accurate solar irradiance measurement. |
| 3. | Project-3: Establishment and Demonstration of Hydrogen Production and Utilization Facility through Photovoltaic-Electrolyzer system (MNRE Funded) This project aims to establish and demonstrate an integrated Green Hydrogen production system powered by solar PV. |
| 4. | Project-4: Establishing Micro Grid/ Local Grid at NISE campus with solar PV and battery energy storage This project is for building a self-reliant AC bus-coupled microgrid at NISE, integrating solar PV and battery energy storage to minimize dependency on grid electricity and diesel generators. |
| 5. | Project-5: Solar Cooking with Energy Storage System This project focuses on developing a clean and reliable indoor solar cooking system integrated with thermal energy storage, enabling cooking during both day and night. |
| 6. | Project-6: Solar Cabin with Thermal Energy Storage This project aims to deliver a solar space heating solution suitable for residential and institutional use in cold Himalayan regions, using renewable energy and cost-effective thermal storage. |
| 7. | Project-7: Instant Solar Geyser This project focuses on the development of an instant solar water geyser integrated with a thermal energy storage (TES) system, offering a reliable, solar-powered hot water solution. |
| 8. | Project-8: Performance Analysis of Bifacial Module at NISE This project focuses on assessing the energy performance of bifacial photovoltaic (PV) modules under different mounting configurations, aiming to guide optimal deployment strategies for varied field conditions. |

| | |
|-----|---|
| 9. | <p>Project-9: Estimation & potential assessment of PV module waste in India</p> <p>This project aims to estimate the future volume and composition of photovoltaic (PV) module waste in India, enabling informed planning for recycling infrastructure and circular economy interventions.</p> |
| 10. | <p>Project-10: Improved Performance Assessment of Bifacial PV Modules Using Modified Equivalent Irradiance Method</p> <p>This project addresses the challenge of accurately evaluating bifacial PV module performance under real-world conditions, where albedo and irradiance variability affect measurement consistency.</p> |
| 11. | <p>Project-11: Development of test setup for reliability and performance of solar water pumping systems</p> <p>This project establishes a dedicated test facility at NISE to evaluate the reliability, durability, and operational performance of solar water pumping systems critical for sustainable rural water management.</p> |
| 12. | <p>Project-12: Solar-Powered Micro-Irrigation: Field Study and Outcomes</p> <p>This project evaluated the feasibility and field performance of a portable, solar-powered micro-irrigation system designed to draw water from surface sources like farm ponds or shallow tanks.</p> |

Apart from the above mentioned projects, NISE has also initiated work on various emerging RE technologies to support technology innovation, scale-up, and sustainable integration by focused research, demonstration, and industry collaboration activities, as highlighted below:

- **AgriPV:** NISE has established a Centre of Excellence on AgriPV in partnership with Indian Agricultural Research Institute (IARI). The focus is to optimize the dual use of agricultural land for farming and solar power generation.
- **Building Integrated Photovoltaics (BIPV):** To promote the aesthetic and functional integration of solar panels into buildings, NISE has launched pilot installations of BIPV systems and conducted one national-level BIPV roundtables involving experts from architecture, academia, and industry.
- **Floating Solar:** NISE has conducted an assessment of floating solar PV potential using bathymetric and irradiance data.
- **Solar Boats and Water-Based Transport:** NISE has initiated early-stage studies on solar-powered boats and ferries. These systems can significantly reduce diesel usage in inland waterways and remote areas.
- **PV Along Highways and Expressways:** With the growing focus on EV adoption and highway electrification, NISE is exploring the deployment of solar PV systems along national highways and expressways.

- **Solar Resource Assessment & Forecasting:** Accurate solar resource data is the backbone of effective solar deployment from designing financially viable projects to maintaining grid reliability in high-renewable scenarios. Recognizing its strategic importance, NISE has prioritized Solar Resource Assessment and Forecasting as a core R&D area with following major activities:
 - Development of Typical Meteorological Year (TMY) Datasets
 - AI/ML-Based Solar Forecasting for Grid Integration
 - Climate Change Impact Studies on Solar Resources

- **Battery Energy Storage Systems (BESS):** NISE is playing a proactive role in advancing energy storage innovation, testing, and policy support and working closely with battery manufacturers, renewable energy developers, academic institutions, and startups. Following are the key R&D areas:
 - Performance and Reliability Assessment of different batteries in real-world systems.
 - Next-Generation Battery Chemistries (Sodium-ion Batteries, Solid-State Batteries, Redox Flow Batteries)

- **Green Hydrogen:** In support of the National Green Hydrogen Mission (NGHM) and India's vision to become a global leader in hydrogen production and usage, NISE has taken significant steps toward establishing itself as a national hub for research, demonstration, and policy development in this emerging sector. Workshops, hands-on training sessions, and awareness programs are being organized to ensure a safe and informed rollout of hydrogen technologies, including hydrogen safety protocols. Also, NISE will host National Centre for Hydrogen Safety (NCHS) under MNRE's mandate. The NCHS is envisioned as a centralized agency for developing hydrogen safety protocols, ensuring safe deployment across the entire value chain—from production and storage to transport and usage.

- **Circular Economy (PV & Battery Recycling):** As part of its roadmap for future emerging RE technologies, NISE is actively contributing to India's transition to a circular economy through focused initiatives on solar photovoltaic and battery recycling. These efforts are aligned with national regulatory developments and the growing need to manage renewable energy waste sustainably. In April 2025, NISE signed an MoU with Attero to jointly research and pilot solar panel recycling technologies. NISE is developing a dedicated research facility on its campus for recycling solutions (PV modules and lithium-ion batteries).

- **Industrial Research & Technical Consultancy:** Through its consultancy portfolio NISE is addressing emerging market segments, performance optimization, and regulatory needs. Some of the key New Focus Areas are:
 - Power Plant Rating and Performance Assessment
 - Manufacturing domain (Solar cell, module and Battery)
 - Solar forecasting
 - Technical Consultation for Emerging Segment including BIPV, Solar PV on highways and expressways, Floating solar systems on reservoirs, Hybrid systems (RE + BESS) for remote or commercial applications

LSQ Diary no. 5440_30.07.2025_NISE.docx (26 kB)

Lok Sabha Starred Question Diary no. 5440 due for 30.07.2025

Inputs from National Institute of Solar Energy (NISE),
Control Organization: Ministry of New and Renewable Energy (MNRE)

Question (a) Whether it is a fact that India despite being a high solar energy potential country, the growth of solar energy utilisation in public and households is not impressive, and if so, the details thereof;

Input from NISE for (a): India is a high solar potential country. The first solar PV potential map of India was developed by NISE in 2014. This comprehensive estimation included identifying suitable areas on wasteland for solar energy generation, assessing rooftop solar potential in urban areas, and aggregating the total solar potential for each state. The assessment revealed a total potential of **748.98 GWp** across the nation. The state-wise potential estimation of 2014 is given in Table 1.

Table 1: State wise Solar Potential of India 2014

| State | Wasteland (sq km) | Solar power plant area (sq km) | Solar potential based on wasteland (GWp) | Rooftop (GWp) | Total solar potential (GWp) |
|-------------------|-------------------|--------------------------------|--|---------------|-----------------------------|
| Andhra Pradesh | 26049 | 781 | 36.83 | 1.60 | 38.44 |
| Arunachal Pradesh | 5743.84 | 172 | 8.62 | 0.04 | 8.65 |
| Assam | 8778.02 | 263 | 13.17 | 0.59 | 13.76 |
| Bihar | 6841.09 | 205 | 10.26 | 0.94 | 11.20 |
| Chhattisgarh | 11817.82 | 355 | 17.73 | 0.54 | 18.27 |
| Delhi | 83.34 | 3 | 0.13 | 1.92 | 2.05 |
| Goa | 496.27 | 15 | 0.74 | 0.14 | 0.88 |
| Gujarat | 21350.38 | 641 | 32.03 | 3.75 | 35.77 |
| Haryana | 2347.05 | 70 | 3.52 | 1.04 | 4.56 |
| Himachal Pradesh | 22470.05 | 674 | 33.71 | 0.14 | 33.84 |
| Jammu & Kashmir | 73754.38 | 2213 | 110.63 | 0.42 | 111.05 |
| Jharkhand | 11670.14 | 350 | 17.51 | 0.68 | 18.18 |
| Karnataka | 14438.12 | 433 | 21.66 | 3.04 | 24.70 |
| Kerala | 2458.69 | 74 | 3.69 | 2.42 | 6.11 |
| Madhya Pradesh | 40042.98 | 1201 | 60.06 | 1.60 | 61.66 |
| Maharashtra | 38262.81 | 1148 | 57.39 | 6.92 | 64.32 |
| Manipur | 7027.47 | 211 | 10.54 | 0.09 | 10.63 |

| | | | | | |
|---------------|---------------|--------------|---------------|--------------|---------------|
| Meghalaya | 3865.76 | 116 | 5.80 | 0.06 | 5.86 |
| Mizoram | 6021.14 | 181 | 9.03 | 0.06 | 9.09 |
| Nagaland | 4815.18 | 144 | 7.22 | 0.06 | 7.29 |
| Orissa | 16648.27 | 499 | 24.97 | 0.81 | 25.78 |
| Punjab | 1019.5 | 31 | 1.53 | 1.28 | 2.81 |
| Rajasthan | 93689.47 | 2811 | 140.53 | 1.78 | 142.31 |
| Sikkim | 3280.88 | 98 | 4.92 | 0.02 | 4.94 |
| Tamil Nadu | 9125.56 | 274 | 13.69 | 3.99 | 17.67 |
| Telangana | 12739 | 382 | 19.11 | 1.30 | 20.41 |
| Tripura | 1315.17 | 39 | 1.97 | 0.11 | 2.08 |
| Uttar Pradesh | 12790.06 | 384 | 19.19 | 3.64 | 22.83 |
| Uttarakhand | 10988.59 | 329.7 | 16.48 | 0.31 | 16.80 |
| West Bengal | 1994.41 | 59.8 | 2.99 | 3.27 | 6.26 |
| UT | 337.3 | 10.1 | 0.51 | 0.28 | 0.79 |
| Total | 472262 | 14168 | 706.15 | 42.83 | 748.98 |

Updated Solar Potential Assessment

Recognizing continuous improvement in Solar PV technologies particularly the availability of high efficiency and large-size PV modules, together with the updated wasteland data, National Institute of Solar Energy (NISE) has updated India's solar potential. The updated solar potential incorporates more advanced GIS based mapping of wasteland together with the parameters of high efficiency modules.

This assessment considers upgraded technological parameters such as **module wattage (545 W_p)**, **module efficiency (20%)**, and **module area (2.6 m²)**. The updated Solar potential of India-2024 for Ground mounted solar PV has already been submitted to the Ministry of New and Renewable Energy (MNRE) for further approvals. Furthermore, India's floating potential has also been evaluated and is ready for submission to MNRE.

Question (b) The details of funds allotted for solar power development during the last ten years and the growth of total installed capacity between the years 2014 and 2025;

Input from NISE for (b): Nil

Question (c) Whether it is true that the Pradhan Mantri- Surya Ghar Muft Bijli Yojana (PM-SGMBY) is not successful despite subsidy up to Rs. 78,000; and

(d) if so., the steps taken in the Government to aggressively promote solar units in households?

Input from NISE for (c) and (d): Nil

Date Thursday January 29, 2026 12:26:59 PM

Madam,

Please find the reply from NISE below: (LSUQ No 241 to be answered on 02.02.2026)

Reply to point (a):

The Government has taken many initiatives to address the shortage of skilled professionals in India's renewable energy sector, particularly in the area of solar cell and module manufacturing, with active involvement of educational and training institutions. In this regard, National Institute of Solar Energy (NISE), an autonomous institute under the Ministry of New and Renewable Energy (MNRE), has organized a two-and-a-half-month specialized training programme aimed at upskilling students and industry professionals in the field of solar cell & module manufacturing. This programme has been designed and developed in consultation with industry experts and other relevant stakeholders to bridge the existing skill gap in the solar manufacturing industry and to align training outcomes with current and future industry requirements. Further, NISE is in the process of organizing similar training programmes in the future to strengthen human resource capacity and support the growth of domestic solar manufacturing in the country.

Reply to point (b):

No input.

Reply to point (c):

Subject: Providing input for the LSUQ No 241 to be answered on 02.02.2026

===== Forwarded message =====

Sir,

Please find attached the the admitted the LSUQ 241 regarding Role of Educational Institutions in Energy Sector to be answered on 02.02.2026. It is requested to kindly provide the input for the LSUQ no 241 urgently by 28.01.2026.

With regards,

Section Officer,
Technical Section -VII,
D/o Higher Education,
M/o Education, New Delhi

Lok Sabha Q. Dy No. 4895.pdf (257 kB)

PROVISIONALLY ADMITTED QUESTION FOR THE LOKSABHA

Starred /Unstarred Diary no. 4895

Renewable Energy Target

Will the Minister of NEW AND RENEWABLE ENERGY

(b) the potential impact of renewable energy on employment and development;

Renewable energy plays a transformative role in promoting employment and regional development. It creates direct jobs in manufacturing, installation, and maintenance of solar, wind, and other clean energy systems, while also generating indirect employment in supporting industries. Programs like the Suryamitra Skill Development Programme empower local youth with technical skills, enabling sustainable livelihoods.

In rural and underserved areas, renewable energy access drives socio-economic growth by powering schools, clinics, and small businesses. It fosters entrepreneurship, reduces energy poverty, and enhances energy security. Moreover, it contributes to environmental sustainability, supports inclusive growth including opportunities for women and aligns with national development goals.

(d) the number of people trained under the programs like Surya Mitra, Varun Mitra and Jal Urja Mitra in the Hoshangabad and Narsinghpur constituencies?

A total of 29 individuals from the Hoshangabad constituency were trained under the Suryamitra Skill Development Programme at the Waraseoni Social Cultural Welfare Society Training Centre, located at:

#26, Vivekanand Pvt ITI Building, Sardar Ward, Behind Civil Court, Sohagpur,
Narmadapuram, Hoshangabad, Madhya Pradesh.

Additionally, 100 individuals from the Hoshangabad and Narsinghpur constituencies received training at nearby Suryamitra Skill Development Training Centres allotted by NISE.

LSUQ Diary no. 4949_30.07.2025_NISE.docx (19.3 kB)

Lok Sabha Unstarred Question Diary no. 4949 due for 30.07.2025

Inputs from National Institute of Solar Energy (NISE),
Control Organization: Ministry of New and Renewable Energy (MNRE)

Question (a) Whether the Government has any proposal to promote the use of green energy for fishing boats;

(b) if so, the details thereof;

Reply to (a) & (b):

National Institute of Solar Energy (NISE) has undertaken focused efforts towards promoting green energy in the fisheries sector, specifically through the development of solar-powered boats for the fishermen community. In this regard NISE has collaborated with a non-governmental organization, the Centre for Sustainable Environment and Education (CSEE), for this initiative.

Under this collaboration, a detailed design has been developed ensuring optimal solar energy capture with structural stability and minimal shading on the boat, Key electrical and performance parameters for both solar and battery systems have been identified for real-time monitoring and system efficiency evaluation. CSEE is responsible for the execution and deployment of the solar boats based on the design provided by NISE. They have also undertaken a detailed economic feasibility study, ensuring the viability and scalability of the solution for the fishermen community.

Ministry: SKILL DEVELOPMENT AND ENTREPRENEURSHIP
Sitting on:09/12/2024
Question Type:UNSTARRED
D.No : 5801

Skill development opportunities to Youths

(a) the details of the schemes being implemented by the Union Government for providing opportunities to the youths in the field of skill development and entrepreneurship in Rajasthan and the current status of targets achieved in this regard;

Ans. Name of the Programme: Suryamitra

The Suryamitra Skill Development Programme is a commendable initiative by the Ministry of New and Renewable Energy (MNRE) in 2015 to address the skill gap in the renewable energy sector, particularly in solar photovoltaic (PV) systems. In that training of technicians for system design, installation, operation, maintenance and repair of solar photovoltaic (PV) systems at grass root level.

(b) whether the Government proposes to provided training and employment to youths by setting up training centres at sub-division level for skill development in Rajasthan;

Ans. Yes, the Ministry of New and Renewable Energy (MNRE) has entrusted the National Institute of Solar Energy (NISE) with the responsibility of coordinating and implementing the Suryamitra Skill Development Programme through Empanelled Training Centres for imparting Suryamitra training programme throughout India.

This strategic collaboration ensures the systematic and effective training of technicians to support India's expanding solar energy sector.

Achievements of the Suryamitra Programme **(Till November 30, 2024):**

- Total Trained Suryamitras: 57,372 individuals have completed the training programme.
- Placement Success: Of these, 28,472 Suryamitras have secured employment in the solar energy sector, showcasing the program's impact on workforce development and job creation.

(c) if so, the details thereof and the steps being taken/proposed to be taken by the Government to boost the pace of skill development and entrepreneurship sector; and

Ans. The following Training Centres Empanelled for the implementation Suryamitra programme at Rajasthan in FY 2024-25

Subject Re: Inputs for Provisionally Admitted Rajya Sabha Starred Question Diary no. S5642 due for 17.03.2026-reg.

From Chandan Banerjee <banerjee.mnre@gov.in>

To Deepak Khatwani <deepak.khatwani@gov.in>

Cc dgnise mnre <dgnise.mnre@nise.res.in>, Prashant Misra <prashant.misra@nise.res.in>

Date Friday March 6, 2026 2:01:56 PM

Dear Deepak ji,

Please find below the input from NISE for part (b) & (c)

(b) NISE has collaborated with the Centre for Sustainable Energy and Environment (CSEE), a non-governmental organization, for the implementation of the pilot project and trial runs.

(c) Some of the key milestones achieved in this area include the development and deployment of a pilot solar boat for fishermen. The design work and procurement of key components such as PV modules, batteries, charge controllers, motors, and fibre boats have been completed. The motor, PV modules, and batteries have been tested at the National Institute of Solar Energy, and fibre boat fabrication has been completed at Uppada Harbour. System integration, field trials, and performance validation at the demonstration site are currently being carried out. These initiatives have demonstrated the technical feasibility of solar-powered fishing boats and have provided valuable operational data for further scaling up of the technology.

Subject: Inputs for Provisionally Admitted Rajya Sabha Starred Question Diary no. S5642 due for 17.03.2026-reg.

Sir/Madam,

I am directed to reproduce Provisionally Admitted Rajya Sabha Starred Question Diary no. S5642 due for 17.03.2026. It is requested to kindly provide the reply latest by 09.03.2026.

National policy and research efforts to promote solar-powered boats

- (a) whether the Government is considering on chalking out a plan to encourage the use of solar-powered boats for fishing, passenger transport, and tourism in collaboration with state governments, if so, the details thereof;
- (b) whether the Government is collaborating with research institutions and industry to strengthen research and development for solar boats and whether testing in the field of indigenous technology development is being done; and
- (c) if so, the milestones achievements made so far in this area?

Regards..

Deepak Khatwani,
Under Secretary,(National Solar Mission)

Date Thursday November 27, 2025 2:55:42 PM

Dear Aravindh,

With reference to the trailing mail, the responses are as follows:

a) Whether the Government has assessed the potential of emerging technologies such as parabolic trough solar collectors, floating solar photovoltaic (FPV) systems or floating solar farms, and offshore wind farms.

Response: Yes, NISE has assessed the potential of floating solar in all the states. The findings have been submitted for stakeholder consultation and review by MNRE.

b) If so, the steps being taken to integrate these innovations into existing renewable energy programmes

Response: NA

c) c) The current status and future roadmap for research and development (R&D) in advanced renewable technologies; and

Response: NA

d) d) The measures proposed to strengthen collaboration between public research institutions, startups, and private industry to promote innovation and indigenous technology development in this sector?

Response: NA

Subject: Inputs for RSUQ diary no. 141 due for 22.07.2025-reg.

Sir/Madam,

I am directed to reproduce Rajya Sabha Unstarred Question Diary no. 141 due for 22.07.2025. It is requested to kindly provide the reply latest by 14.07.2025.

PV Module Testing and Calibration Laboratory

- (a) the objectives and capabilities of the new PV Module Testing and Calibration Laboratory at National Institute of Solar Energy (NICA);
- (b) the manner in which NICA supports domestic solar manufacturing under the PLI scheme through BIS-compliant testing and certification of emerging solar technologies;
- (c) the growth in India's installed solar capacity and indigenous manufacturing since 2024, and the target set for 2030; and
- (d) the details of NICA's workforce development initiatives, including the number of Suryamitras trained so far?

2. NISE for Point a,b & d, CPSU- point b &c and shri H.C Borah- point b

Regards..

Ms. Seema Srivastava,
Under Secretary,
Ministry of New and Renewable Energy,
Atal Akashay Urja Bhawan.
Opp.CGO Complex, New Delhi-110003

Reply to Rajya Sabha Question Dy.141 for 22.07.2025.docx (18.4 kB)

PROVISIONALLY ADMITTED QUESTION FOR THE RAJYA SABHA

Starred /Unstarred Diary no. 141

(d) the details of NICA's workforce development initiatives, including the number of Suryamitras trained so far?

Workforce Development Initiatives

1. Suryamitra Skill Development Programme:

Launched in 2015, the Suryamitra Skill Development Programme is a flagship initiative of the Ministry of New and Renewable Energy (MNRE), designed to develop a skilled workforce for the installation, operation, commissioning, and maintenance of solar power projects. The programme plays a key role in supporting India's goal of achieving 280 GW of solar power capacity by 2030.

MNRE has appointed the National Institute of Solar Energy (NISE) as the nodal agency for coordinating and implementing the programme through a nationwide network of Empanelled Training Centres (ETCs).

2. Skilling Programmes under the Capacity Building Component of PM-Surya Ghar: Muft Bijli Yojana

To address the growing demand for a skilled solar workforce, NISE has developed three specialized Upskilling/Reskilling training modules, which are being implementing through the Suryamitra Empanelled Training Centres.:

- I. Solar PV Installer – 60 hours (7 days)**
- II. Rooftop Solar Supervisor – 32 hours (4 days)**
- III. On-the-Job Training (OJT) for Trained Installers/Suryamitras – 40 hours (5 days)**

Details of Suryamitras Trained.

| Sl. No. | State | Total No. of Suryamitra Trained |
|----------------|---|--|
| 1 | Andaman and Nicobar Islands (UT) | 0 |
| 2 | Andhra Pradesh | 2299 |
| 3 | Arunachal Pradesh (NER) | 150 |
| 4 | Assam (NER) | 1710 |
| 5 | Bihar | 2126 |
| 6 | Chandigarh (UT) | 291 |
| 7 | Chhattisgarh | 2417 |
| 8 | Dadra and Nagar Haveli and Daman & Diu (UT) | 0 |

| | | |
|---------------|------------------------|--------------|
| 9 | Delhi (UT) | 702 |
| 10 | Goa | 321 |
| 11 | Gujarat | 3532 |
| 12 | Haryana | 1649 |
| 13 | Himachal Pradesh | 564 |
| 14 | Jammu and Kashmir (UT) | 1483 |
| 15 | Jharkhand | 906 |
| 16 | Karnataka | 2178 |
| 17 | Kerala | 1035 |
| 18 | Ladakh (UT) | 60 |
| 19 | Lakshadweep (UT) | 30 |
| 20 | Madhya Pradesh | 6365 |
| 21 | Maharashtra | 5208 |
| 22 | Manipur (NER) | 150 |
| 23 | Meghalaya (NER) | 60 |
| 24 | Mizoram (NER) | 0 |
| 25 | Nagaland (NER) | 60 |
| 26 | Orissa | 2864 |
| 27 | Pondicherry (UT) | 121 |
| 28 | Punjab | 761 |
| 29 | Rajasthan | 5604 |
| 30 | Sikkim (NER) | 0 |
| 31 | Tamil Nadu | 4268 |
| 32 | Telangana | 3952 |
| 33 | Tripura (NER) | 208 |
| 34 | Uttar Pradesh | 6747 |
| 35 | Uttarakhand | 1240 |
| 36 | West Bengal | 4652 |
| Total: | | 63713 |

Sir,

It is requested that requisite inputs for framing the reply of Rajya Sabha Provisionally Admitted Question Dy. No. 2123 (copy attached) due for answer on 04-12-2024 regarding "Glaring skill gap in the renewable energy sector", may please be sent to this Ministry urgently.

This has the approval of competent authority.

With regards,

HRD Division
Ministry of New and Renewable Energy
Atal Akshay Urja Bhawan
Lodhi Road, New Delhi-110003.

Attachments

Rajya Sabha Question Dy. No. 2123 for 04.12.2024..docx (24.7 kB)

RS Parl. Q Dy. 2123 for 4.12.2024 (1).pdf (246 kB)

Causes of the Gap

- **Educational Mismatch:** Traditional engineering and technical programs often don't align with the latest renewable energy needs.
- **Rapid Industry Growth:** The sector is expanding faster than the workforce can adapt.
- **Regional Disparities:** Many renewable projects are located in rural or remote areas, but most skilled workers reside in urban centers.
- **Lack of Awareness:** Potential candidates may lack understanding of career opportunities in the sector.

Key Areas of the Skill Gap

1. Technical Expertise

- Demand for specialists in solar, wind, geothermal, and energy storage far exceeds supply. Roles like electrical engineers, renewable energy technicians, and software developers are particularly affected.
- Lack of expertise in managing advanced technologies like smart grids and energy-efficient systems.

2. Data and Digital Skills

- Increasing reliance on AI, IoT, and big data in optimizing renewable energy systems requires expertise in data science and digital engineering.
- Skills in predictive analytics and cybersecurity are critical for managing modern renewable infrastructure.

3. Policy and Regulatory Knowledge

- Understanding renewable energy policies, permitting processes, and international standards is vital for project developers and compliance managers.
- Shortages of experts who can navigate the legal and bureaucratic landscapes.

4. Project Management and Financing

- Gaps in skills related to renewable project financing, supply chain management, and scaling solutions effectively.

Impacts

- **Delayed Projects:** Many renewable energy installations face delays due to a lack of skilled workers.

- **Increased Costs:** Scarcity drives up labor costs, affecting project budgets and timelines.
- **Missed Climate Goals:** A shortage of skilled professionals may hinder the global transition to cleaner energy.

Solutions

Education and Training

Develop specialized programs in universities and technical colleges focusing on renewable energy technologies.

Expand Short term training programmes for on-the-ground skills like solar panel installation.

Upskilling and Reskilling

Offer industry professionals opportunities to transition to renewable energy roles.

I. Short Term Trainings and skill Development in Renewable Energy

1. Solar PV Technician (Suryamitra Skill Development) Programme

Training of technicians for system design, installation, operation, maintenance and repair of solar photovoltaic (PV) systems at grass root level:

The **Suryamitra Skill Development Programme** is a commendable initiative by the Ministry of New and Renewable Energy (MNRE) in 2015 to address the skill gap in the renewable energy sector, particularly in **solar photovoltaic (PV)** systems. By focusing on training technicians at the grassroots level, the Suryamitra Skill Development Programme plays a pivotal role in ensuring the availability of a skilled workforce critical to achieving India's net-zero targets by 2070. This initiative supports the deployment, operation, and maintenance of renewable energy systems, particularly solar power, which is a cornerstone of India's clean energy transition.

The **Ministry of New and Renewable Energy (MNRE)** has entrusted the **National Institute of Solar Energy (NISE)** with the responsibility of coordinating and implementing the **Suryamitra Skill Development Programme**. This strategic collaboration ensures the systematic and effective training of technicians to support India's expanding solar energy sector.

Achievements of the Suryamitra Programme (Till March 31, 2024):

- **Total Trained Suryamitras:** 56,507 individuals have successfully completed the training program.

- **Placement Success:** Of these, **26,967 Suryamitras** have secured employment in the solar energy sector, showcasing the program's impact on workforce development and job creation.
- **Nationwide Reach:** Training has been conducted through a network of partners and centers across the country, ensuring widespread access and regional inclusivity.

Key Contributions:

Workforce Readiness: The program has created a pool of skilled technicians to support the installation, commissioning, operation, and maintenance of solar power systems.

Employment Opportunities: Nearly 50% placement reflects the program's effectiveness in bridging the gap between skill development and industry needs.

Regional Development: By decentralizing training centers, the program has reached rural and semi-urban areas, enabling local communities to participate in the renewable energy transition. With such a robust foundation, the Suryamitra programme is well-positioned to meet future targets, including the 12,800 skilling goal for FY 2024-25, and contribute significantly to India's renewable energy ambitious goal of 280 GW of solar power capacity by 2030 and net-zero commitments.

2. Solar Water Pumping Training (Varunmitra Skill Development) Programme

Solar PV water pumping systems are a key application of solar energy, addressing irrigation needs sustainably and efficiently. Under the PM-KUSUM scheme, the government aims to incentivize farmers to:

Transition to solar-powered water pumps for irrigation, reducing dependence on conventional fuels.

Utilize barren land for solar power generation, providing an additional income stream.

However, the large-scale installation, commissioning, and maintenance of these systems require a skilled workforce, leading to the establishment of the Varunmitra Programme as a complementary initiative to the Suryamitra Skill Development Programme.

Objectives of the Varunmitra Programme

The **Varunmitra Programme** is designed to:

- Train individuals in the **design, installation, and commissioning** of solar water pumping systems.
- Provide skills for **operation, safety, troubleshooting, and maintenance** of these systems.
- Build a pool of skilled technicians to support the rapid rollout of solar water pumps under PM-KUSUM.

Achievements of the Varunmitra Programme (Till March 31, 2024)

Total Trained Varunmitras: 1,266 individuals have successfully completed the training program.

Nationwide Reach: A network of training centers and partners ensures regional inclusivity and wide Future Targets

For FY 2024-25, the programme has set a skilling target of 510 individuals, contributing to the manpower needed for the increasing demand for solar water pumps.

By addressing the need for a skilled workforce in solar water pumping systems, the Varunmitra Programme ensures the success of initiatives like PM-KUSUM, while also fostering rural development and environmental sustainability.

II. Upskilling and Reskilling

1. PM Surya Ghar: Muft Bijli Yojana – Empowering Residential Solar Adoption

The Government of India's approval of the PM Surya Ghar: Muft Bijli Yojana on February 29, 2024, marks a significant milestone in promoting solar rooftop installations in the residential sector. With an ambitious budget of ₹75,021 crore, the scheme aims to:

- **Boost Solar Rooftop Capacity:** Increase the share of rooftop solar systems in India's renewable energy portfolio.
- **Empower Households:** Enable residential households to generate their own electricity and reduce dependency on grid power, fostering energy independence.

The program is set to be implemented until FY 2026-27, aligning with India's broader renewable energy and net-zero goals.

Workforce Requirement

To achieve the target of 1 crore residential rooftop installations, approximately 1 lakh installation teams, each comprising 3-4 skilled technicians, will be needed. This highlights the critical importance of training and skill development to meet the program's workforce demand.

Significance of the Training Programme

- **Employment Generation:** The program will create jobs for over 3–4 lakh technicians, providing significant economic opportunities, especially in rural and semi-urban areas.
- **Efficient Implementation:** A skilled workforce is crucial to meeting the ambitious target of 1 crore rooftops by FY 2026-27.
- **Support for Renewable Transition:** Trained technicians will ensure high-quality installations, maximizing the efficiency and longevity of rooftop systems.

- **Consumer Empowerment:** Skilled personnel will provide households with the confidence to adopt solar systems by ensuring reliable installation and maintenance services.

The PM Surya Ghar: Muft Bijli Yojana and its associated training initiatives represent a significant step toward India's renewable energy aspirations, fostering energy independence, job creation, and environmental sustainability.

NISE Training Modules for Solar Rooftop Installations

To support the ambitious goals of the PM Surya Ghar: Muft Bijli Yojana and address the demand for a skilled workforce, the National Institute of Solar Energy (NISE) developed and proposed training modules. These were officially approved by the Ministry of New and Renewable Energy (MNRE) on October 9, 2024, and implementation is now underway.

Training Modules Approved by MNRE

a. Solar PV Installers

Target: 20,000 candidates

Objective: Train individuals in the installation of solar PV systems, focusing on safety, efficiency, and quality.

b. Rooftop Solar Supervisors

Target: 10,000 candidates

Objective: Equip supervisors with advanced knowledge for overseeing rooftop solar installations, including project management, troubleshooting, and compliance.

c. On-the-Job Training (OJT) for Trained Installers/Suryamitras

Target: 25,000 candidates

Objective: Provide practical, hands-on experience to existing trained personnel, enhancing their skills for real-world challenges.

Implementation Plan

Approval Date: October 9, 2024

Allotment Letters were issued to 420 Training Centres across the country.

Training Capacity: The sanctioned program aims to train a total of 55,000 candidates, aligning with the MNRE's targets for workforce readiness in the solar rooftop sector.

Impact of the Training Modules

- **Enhanced Workforce Readiness:** A diverse range of training ensures all levels of expertise are covered, from installers to supervisors.

- **Nationwide Reach:** With 420 training centers, the program ensures widespread accessibility and regional inclusivity.
- **Support for Solar Expansion:** The initiative aligns with the target of 1 crore rooftop installations by building a skilled and capable workforce.
- **Economic Growth:** These programs will generate significant employment opportunities while empowering individuals to contribute to India's renewable energy transition.

2. National Institute of Solar Energy Upskilling Training Programmes

Key Training Programs Conducted by NISE

On-Campus Training Programmes

Held at NISE's Gurugram Campus, these programs are tailored to various skill levels and professional requirements.

- **Open to Graduate, Researcher, and Industry Official Training**

Individual participants.

Stakeholders nominated by their organizations.

Targets early-career professionals, researchers, and industry personnel seeking advanced technical and operational knowledge.

Focus Areas: Solar energy systems, renewable energy technologies, and industry-specific skill enhancement.

Designed to reduce the skill gap in the renewable energy sector.

- **Customized Training Programmes**

Offered on request by organizations, ensuring content is tailored to meet specific requirements.

Examples: Programs for corporate clients, utility operators, or regional energy bodies.

- **International Training Programmes**

Conducted under the Indian Technical and Economic Cooperation (ITEC) and other international programs sponsored by:

Ministry of External Affairs (MEA).

Ministry of New and Renewable Energy (MNRE).

Focus Areas: Solar energy technology transfer, project management, and global renewable energy trends.

- **Specialized Training for Defence Officers**

An annual program tailored for senior defence officers, focusing on the application of solar energy technologies in defence operations and infrastructure.

- **Master Trainers' Training Programme on Rooftop Solar Installations under PM Surya Ghar - Muft Bijli Yojana**

A Master Trainers' Training Programme focused on rooftop solar installations was conducted on June 24-25, 2024, at the National Institute of Solar Energy (NISE) in Gurugram. This program is designed to train trainers from the National Skill Training Institute (NSTI) of DGT, who will, in turn, provide training to technicians and installers for the PM Surya Ghar: Muft Bijli Yojana. This initiative supports the large-scale deployment of rooftop solar installations under the scheme and addresses the need for a skilled workforce.

Dear Deepak Khatwani,

Input from NISE against part (b) whether the Government is experimenting with collaboration with research institutions and industry to strengthen research and development in the field of indigenous technology development for solar boats and the details of the achievements so far? is given below:

Input: "The National Institute of Solar Energy (NISE) has designed PV boats for fishermen communities and has been implemented in collaboration with Centre for Sustainable Energy and Environment (CSEE), a NGO. The trial runs of the solar-powered boats are currently underway. A detailed techno-economic analysis report will be released after analysis of performance data generated during approximately three months of pilot operation."

b. The number of trained women who got employment post training.

NISE actively guides training centres in the selection of candidates, with a strong focus on promoting the inclusion of rural youth, women, and individuals from Scheduled Castes (SC) and Scheduled Tribes (ST). This inclusive strategy ensures equitable access to skill development opportunities and contributes to building a diverse and representative workforce in the renewable energy sector.

Subject: Urgent: Parliament Question - Request for inputs on parts (b) and (c) for Rajya Sabha PQ No. 473 for 03.02.2026

Sir,

The undersigned is directed to request the National Institute of Solar Energy (NISE) to provide inputs on the Rajya Sabha admitted parliament question No. **473** scheduled for answer on **03.02.2026**, titled "**Promotion of domestic solar manufacturing and**

identification of high solar potential regions¹. The aforementioned Parliament Questions is reiterated below:

Will the Minister of New and Renewable Energy be pleased to state:

- (a) whether the Production Linked Incentive (PLI) Scheme for High Efficiency Solar PV Modules has strengthened domestic solar PV manufacturing through capacity creation, technological upgradation and local value addition, the details thereof;
- (b) whether Government has conducted or commissioned any studies to identify high solar irradiance regions with maximum sunny days across the country;
- (c) if so, whether regions such as Vidarbha and Marathwada in Maharashtra have been identified as high solar potential areas and the findings of such studies; and
- (d) the steps taken or proposed, including new schemes or region-specific initiatives, to promote solar-manufacturing and solar power-projects in these high-sunlight regions?

Accordingly, NISE is requested to kindly submit inputs for parts (b) and (c) no later than today evening

Regards,
Avritti Srivastava
Young Professional
Ministry of New & Renewable Energy
(Grid Solar Power Division)

Rajya Sabha Starred Question Diary no. 473 due for 03.02.2026

Inputs from National Institute of Solar Energy (NISE),
Control Organization: Ministry of New and Renewable Energy (MNRE)

Promotion of domestic solar manufacturing and identification of high solar potential regions’".
The aforementioned Parliament Questions is reiterated below:

Will the Minister of New and Renewable Energy be pleased to state:

- (a) whether the Production Linked Incentive (PLI) Scheme for High Efficiency Solar PV Modules has strengthened domestic solar PV manufacturing through capacity creation, technological upgradation and local value addition, the details thereof;
- (b) whether Government has conducted or commissioned any studies to identify high solar irradiance regions with maximum sunny days across the country;
- (c) if so, whether regions such as Vidarbha and Marathwada in Maharashtra have been identified as high solar potential areas and the findings of such studies; and
- (d) the steps taken or proposed, including new schemes or region-specific initiatives, to promote solar-manufacturing and solar power-projects in these high-sunlight regions?

Responses

(b) National Institute of Solar Energy (NISE) has not conducted any specific standalone study exclusively for the identification of high solar irradiance regions or regions with maximum sunny days across the country. However, NISE has carried out a comprehensive solar potential assessment of India using globally accepted satellite-derived solar resource maps and datasets, which provide spatial information on solar irradiance across the country. The assessment takes into account annual average solar irradiance greater than 3.5 kWh/m²/day.

(c) Based on the solar potential assessment published by NISE, the district wise solar potential of Vidarbha and Marathwada regions in Maharashtra is as follows:

Table: District wise solar potential of Vidarbha and Marathwada regions Maharashtra

| Sr. No | Region | District | Solar Potential (MW _p) |
|--------|------------|-------------|------------------------------------|
| 1 | Marathwada | Ahamadnagar | 28196.41 |
| 2 | | Akola | 4752.39 |
| 3 | | Amaravati | 7974.94 |
| 4 | | Aurangabad | 10058.32 |
| 5 | | Bid | 10317 |

**MOST URGENT/TIME BOUND
PARLIAMENT QUESTION**

Subject: Rajya Sabha Provisionally Admitted Question Dy. No. Dy. No. S7563 for 01/04/2025 regarding Renewable Energy Jobs and Training Initiatives

Dear Sir/Madam,

Please find attached a copy of Rajya Sabha Provisionally Admitted Question Dy. No. Dy. No. S7563 for 01/04/2025 regarding Renewable Energy Jobs and Training Initiatives. NISE, NIWE, NIBE, SCGJ are requested to kindly furnish point wise reply of the Rajya Sabha Question latest by 24th March, 2025 positively.

This may please give Top Priority.

With regards,
HRD Division, MNRE

PROVISIONALLY ADMITTED QUESTION FOR THE RAJYA SABHA

Starred /Unstarred Diary No.-- S7563

Renewable Energy Jobs & Training Initiatives

(a) How many jobs have been created in the renewable energy sector in the past five years, and what are the key employment trends in this sector?

The Ministry of New and Renewable Energy (MNRE) has entrusted the National Institute of Solar Energy (NISE) with the responsibility of coordinating and implementing the Suryamitra Skill Development Programme through Empanelled Training Centres for imparting Suryamitra training programme throughout the India.

Details of Employment Generated by NISE through the Suryamitra Skill Development Programme.

==== Forwarded message =====

Sir/Madam,

I am directed to reproduce Rajya Sabha Starred Question Diary no. S146 due for 02.12.2025. It is requested to kindly provide the reply latest by 21.12.2025.

Promotion of Solar Power Operated Boats to Reduce Marine Pollution

- (a) whether the Government is aware that some State Government, including Uttar Pradesh and Kerala, have successfully introduced solar power operated ferry boats to promote clean energy transportation
- (b) whether the Central Government proposes to promote or extend financial and technical support for the development and wider adoption of solar- powered boats across
- (c) whether the Government intends to encourage research in solar- powered boat technology to enhance efficiency, durability, and cost-effectiveness;
- (d) whether the Government plans to introduce schemes for fishermen and naval operations to adopt solar-powered boats
- (e) whether the Government also proposes to equip Marine Police and other coastal patrol agencies with solar-powered boats?

Regards..

Deepak Khatwani,
Under Secretary,(National Solar Mission)
Ministry of New and Renewable Energy,
Atal Akashay Urja Bhawan.

Inputs from National Institute of Solar Energy (NISE),
Control Organization: Ministry of New and Renewable Energy (MNRE)

- (a) whether the Government is aware that some State Government, including Uttar Pradesh and Kerala, have successfully introduced solar power operated ferry boats to promote clean energy transportation
- No input.
- (b) whether the Central Government proposes to promote or extend financial and technical support for the development and wider adoption of solar- powered boats across
- No input.
- (c) whether the Government intends to encourage research in solar- powered boat technology to enhance efficiency, durability, and cost-effectiveness
- Following the Prime Minister's review on 30 December 2024, MNRE identified solarising fishermen and tourism boats as a priority. NISE and CSEE are developing a pilot solar-powered boat to serve as a scalable model for coastal areas. The design work and component procurement of PV modules, batteries, charge controllers, motors, and fibre boats are complete. The motor, PV modules, and batteries have been tested at NISE, and fibre boat fabrication is completed at Uppada Harbour, Andhra Pradesh. The system integration is in progress, and the next steps include field trials and performance validation at the demonstration site.
- (d) whether the Government plans to introduce schemes for fishermen and naval operations to adopt solar-powered boats
- No input.
- (e) whether the Government also proposes to equip Marine Police and other coastal patrol agencies with solar-powered boats?
- No input.

RSQ_Dy. No. S6900_12.08.2025_NISE.docx (15.8 kB)

Rajya Sabha Question Dy. No. S6900 to be put up for 12.08.2025

Inputs from National Institute of Solar Energy (NISE),
Control Organization: Ministry of New and Renewable Energy (MNRE)

(a) whether any incidents of cybersecurity breaches have been reported in rooftop solar inverters;

Input from NISE: No specific incidents of cyber breaches in rooftop solar inverters have been publicly reported in India or come to the knowledge of this institute

(b) if so, the details of such incidents, and if not, the rationale behind implementing this centralised cyber-check mechanism;

Input from NISE: NIL

(c) whether the Government has considered measures to reduce reliance on or restrict the usage Of Chinese- manufactured solar chips in light of cybersecurity concerns; and (d) if so, the details thereof, and if not, the reasons therefor?

Input from NISE: In this regard, MNRE has prepared a draft framework specifying key technical and operational requirements for such inverter communication devices. Key provisions include:

- Mandatory use of Machine-to-Machine (M2M) SIM-based communication to enable secure and reliable data transmission.
- All OEMs enlisted under the scheme must ensure their inverters connect directly to National Servers hosted in India and managed by MNRE or any designated Government agency.
- Integration testing of inverter communication devices is proposed to begin from 1st September 2025.
- In this regard MNRE has circulated draft guide line for wide comment which was open for comment till 31/07/2025.

Annexure I.pdf (361 kB)

PROVISIONALY ADMITTED QUESTION FOR THE RAJYA SABHA

Starred /Unstarred Diary No.-- U294

- a. **what are the reasons for the shortage of skilled labor in the solar industry and the measures being implemented to address the same**

Causes of the Skilled Labor Shortage in the Solar Industry

- **Rapid Industry Growth:** The accelerated expansion of the solar industry has outpaced the availability of trained professionals.
- **Lack of Training Programs:** Insufficient vocational and technical training programs for solar installation and maintenance.
- **Regional Disparities:** Many renewable projects are located in rural or remote areas, but most skilled workers reside in urban centers.
- **Lack of Awareness:** Potential candidates may lack understanding of career opportunities in the sector.
- **Geographic Mismatch:** Workers are not always located where jobs are most needed.
- **Limited Awareness:** Low awareness about career opportunities in the solar sector.

Measures to Address the Shortage

- **Partnerships with Educational Institutions:** Develop specialized programs in universities and technical colleges focusing on renewable energy technologies.
 - Expand Short term training programmes for on-the-ground skills like solar panel installation.
 - Upskilling and Reskilling for industry professionals for transition to renewable energy roles.
 - **Apprenticeship Programs:** On-the-job training initiatives to upskill workers.
 - **Public Awareness Campaigns:** Promoting career prospects in the solar industry to attract new talent.
- b. **details of training programs and collaborations established or plans to establish to enhance the availability of skilled workers**

1. Suryamitra Skill Development Programme (Solar PV Installer)

The Ministry of New and Renewable Energy (MNRE) has entrusted the National Institute of Solar Energy (NISE) with the responsibility of coordinating and implementing the Suryamitra Skill Development Programme through Empanelled Training Centres for imparting Suryamitra training programme throughout the India.

This strategic collaboration ensures the systematic and effective training of technicians to support India's expanding solar energy sector.

Achievements of the Suryamitra Programme (Till March 31, 2024):

- Total Trained Suryamitras:** 56,507 individuals have successfully completed the training program.

•**Placement Success:** Of these, 26,967 Suryamitras have secured employment in the solar energy sector, showcasing the program's impact on workforce development and job creation.

By decentralizing Training Centers, the program has reached rural and semi-urban areas, enabling local communities to participate in the renewable energy transition. With a strong foundation, the Suryamitra program, currently operating across 30 states (Annexure I), aims to achieve its skilling target of 12,800 individuals for FY 2024-25. This initiative is set to play a pivotal role in supporting India's ambitious renewable energy goals, including achieving 280 GW of solar power capacity by 2030 and meeting its net-zero commitments.

2. Varunmitra Skill Development Programme (Solar Water Pumping Training)

Solar PV water pumping systems are a key application of solar energy, addressing irrigation needs sustainably and efficiently. Under the PM-KUSUM scheme, the government aims to incentivize farmers for transition to solar-powered water pumps for irrigation, reducing dependence on conventional fuels. However, the installation, commissioning, and maintenance of these systems require a skilled workforce, leading to the establishment of the Varunmitra Programme.

The Varunmitra Programme is designed to:

- Train individuals in the design, installation, and commissioning of solar water pumping systems.
- Provide skills for operation, safety, troubleshooting, and maintenance of these systems.
- Build a pool of skilled technicians to support the rapid rollout of solar water pumps under PM-KUSUM.

For FY 2024-25, the programme has set a skilling target of 510 individuals, contributing to the manpower needed for the increasing demand for solar water pumps.

Achievements of the Varunmitra Programme (Till Dec 31, 2024)

Total Trained Varunmitras: 1,266 individuals have successfully completed the training program.

Nationwide Reach: A network of training centers and partners ensures regional inclusivity and widens Future Targets

3. PM Surya Ghar: Muft Bijli Yojana – Empowering Residential Solar Adoption

The Government of India's approval of the PM Surya Ghar: Muft Bijli Yojana on February 29, 2024, marks a significant milestone in promoting solar rooftop installations in the residential sector. With an ambitious budget of ₹75,021 crore, the scheme aims to:

- Boost Solar Rooftop Capacity:** Increase the share of rooftop solar systems in India's renewable energy portfolio.
- Empower Households:** Enable residential households to generate their own electricity and reduce dependency on grid power, fostering energy independence.

To support the ambitious goals of PM Surya Ghar: Muft Bijli Yojana and address the demand for a skilled workforce, the National Institute of Solar Energy (NISE) developed and proposed

training modules. These were officially approved by the Ministry of New and Renewable Energy (MNRE) on October 9, 2024, and implementation is now underway.

Training Modules Approved by MNRE

i. Solar PV Installers

Target: 20,000 candidates

Objective: Train individuals in the installation of solar PV systems, focusing on safety, efficiency, and quality.

ii. Rooftop Solar Supervisors

Target: 10,000 candidates

Objective: Equip supervisors with advanced knowledge for overseeing rooftop solar installations, including project management, troubleshooting, and compliance.

iii. On-the-Job Training (OJT) for Trained Installers/Suryamitras

Target: 25,000 candidates

Objective: Provide practical, hands-on experience to existing trained personnel, enhancing their skills for real-world challenges.

Implementation Plan

NISE conducted a Master Trainers Training Programme on Solar PV Installation for faculty members of National Skill Training Institutes (NSTI) from June 24-25, 2024. This marked the foundational training programme under the PM Surya Ghar - Muft Bijli Yojana scheme. Allotment letters were issued to Training Centers with the goal of training a total of 55,000 candidates, in alignment with the MNRE's targets for workforce readiness in the solar rooftop sector. This initiative aims to cover all levels of expertise, from installers to supervisors, ensuring widespread access, regional inclusivity, and a skilled workforce across the country.

(c) what support mechanisms are being provided to solar energy companies to invest in training and upskilling their workforce;

National Institute of Solar Energy Upskilling Training Programmes

Key Training Programs Conducted by NISE

On-Campus Training Programmes

Held at NISE's Gurugram Campus, these programs are tailored to various skill levels and professional requirements.

• Open to Graduate, Researcher, and Industry Official Training

Individual participants.

Stakeholders nominated by their organizations.

Targets early-career professionals, researchers, and industry personnel seeking advanced technical and operational knowledge.

Focus Areas: Solar energy systems, renewable energy technologies, and industry-specific skill enhancement.

Designed to reduce the skill gap in the renewable energy sector.

- **Customized Training Programmes**

Offered on request by organizations, ensuring content is tailored to meet specific requirements. Examples: Programs for corporate clients, utility operators, or regional energy bodies.

- **International Training Programmes**

Conducted under the Indian Technical and Economic Cooperation (ITEC) and other international programs sponsored by:

Ministry of External Affairs (MEA).

Ministry of New and Renewable Energy (MNRE).

Focus Areas: Solar energy technology transfer, project management, and global renewable energy trends.

- **Specialized Training for Defence Officers**

An annual program tailored for senior defence officers, focusing on the application of solar energy technologies in defence operations and infrastructure.

(d) the plan for increasing the skilled workforce and the criteria to evaluate the effectiveness of its training programs in mitigating the skill shortage?

- To bridge the skill gap and enhance the employability of trained Suryamitras, a "Networking Event with Suryamitra Training Partners, Solar PV Developers, and EPCs" was held at NISE on December 17, 2024.
- A Master Trainers' Training Programme focused on rooftop solar installations was conducted on June 24-25, 2024, at the National Institute of Solar Energy (NISE) in Gurugram. This program is designed to train trainers from the National Skill Training Institute (NSTI) of DGT, who will, in turn, provide training to technicians and installers for the PM Surya Ghar: Muft Bijli Yojana. This initiative supports the large-scale deployment of rooftop solar installations under the scheme and addresses the need for a skilled workforce.

NISE will continue implementing the aforementioned programs to enhance the skilled workforce and address the ongoing skill shortage.

List of Training Center (s) of Suryamitra Skill Development Programme Allocated for the FY 2023-24

Sir/Madam,

I am directed to reproduce **admitted Rajya Sabha Unstarred Question no. 300** (Diary no. 403) due for 22.07.2025. It is requested to kindly provide the reply latest by 16.07.2025.

Solar Energy Generation

- (a) the total solar energy generated in the last five years across India, state-wise, and district-wise in Andhra Pradesh, particularly in Kakinada;
- (b) the steps taken to increase solar energy generation in India and Andhra Pradesh over the next five years, including measures to reduce costs and make solar power more affordable for consumers;
- (c) details of schemes, initiatives, and programs introduced to promote solar energy, their current status, and implementation state-wise, especially in Andhra Pradesh; and
- (d) the estimated untapped solar energy potential in India, particularly in Andhra Pradesh, and whether any projects have been planned to harness these resources?

2. Nise is requested for point **d** only

Regards..

Ms. Seema Srivastava,
Under Secretary,
Ministry of New and Renewable Energy,
Atal Akashay Urja Bhawan.

RSQU_No. 300_Dy. No. 403_22.07.2025_NISE.docx (19.5 kB)

Rajya Sabha Question No. 300 (Dy. No. 403) to be put up for 22.07.2025

Inputs from National Institute of Solar Energy (NISE),
Control Organization: Ministry of New and Renewable Energy (MNRE)

Question (d) The estimated untapped solar energy potential in India, particularly in Andhra Pradesh, and whether any projects have been planned to harness these resources?

Reply to (d):

The first comprehensive estimation of India's solar photovoltaic (PV) potential was conducted by the National Institute of Solar Energy (NISE) in 2014. This assessment included identifying suitable wastelands for large-scale ground-mounted solar installations, evaluating rooftop solar potential, and calculating total solar capacity for each state. As per this study, the total solar potential across India was estimated at 748.98 GW_p, of which 706.15 GW_p was based on wastelands and 42.83 GW_p from rooftops.

For Andhra Pradesh, the total estimated solar potential was 38.44 GW_p, comprising:

- 36.83 GW_p from wasteland-based ground-mounted systems
- 1.60 GW_p from rooftop solar systems

Recognizing the advancements in PV technology particularly the availability of high-efficiency and larger-size modules along with updated wasteland data, NISE has undertaken a revised solar potential assessment in 2024. This new assessment leverages GIS-based mapping techniques and updated module parameters to produce a more accurate and higher-resolution estimate of India's solar potential. The revised assessment has already been submitted to the Ministry of New and Renewable Energy (MNRE) for review and approval.

As of 30 June 2025, Andhra Pradesh has an installed solar capacity of 5.51 GW_p, which reflects only a small fraction of its estimated potential. This indicates significant untapped potential in the state.

Rajya Sabha Question No. 304 (Dy. No. 141) to be put up for 22.07.2025

Inputs from National Institute of Solar Energy (NISE),
Control Organization: Ministry of New and Renewable Energy (MNRE)

Question (a) The objectives and capabilities of the new PV Module Testing and Calibration Laboratory at National Institute of Solar Energy (NISE);

Reply to (a):

1. Objective of the PV module testing and calibration laboratory

The primary objective of the NISE test facility is to conduct testing of photovoltaic (PV) modules and issuing reports in accordance with various Indian and international standards. The facility supports Indian PV module manufacturers, contributes to revenue generation of NISE, provides technical inputs to the Ministry of New and Renewable Energy (MNRE) for quality control measures, and facilitates testing under the Production Linked Incentive (PLI) scheme. The laboratory also develops testing standards for the product related to PV module, where there is no national and international standard available also give input to BIS for formulization of different Indian standards. The laboratory operates in compliance with ISO/IEC 17025:2017 and is recognized as a Type 2 laboratory under the Bureau of Indian Standards (BIS).

2. At present, the NABL accreditation process of the lab is going on. The lab is offering testing and calibration for following standards:

| Standard No. | Details |
|---|--|
| IEC 61215-1-1: 2021/ IS 14286-1-1: 2023 | Terrestrial photovoltaic (PV) modules - Design qualification and type approval - Part 1-1: Special requirements for testing of crystalline silicon photovoltaic (PV) modules |
| IEC 61215-1-2: 2021/ IS 14286-1-2: 2023 | Terrestrial photovoltaic (PV) modules - Design qualification and type approval - Part 1-2: Special requirements for testing of thin-film Cadmium Telluride (CdTe) based photovoltaic (PV) modules |
| IEC 61215-1-3: 2021/ IS 14286-1-3: 2023 | Terrestrial photovoltaic (PV) modules - Design qualification and type approval - Part 1-3: Special requirements for testing of thin-film amorphous silicon based photovoltaic (PV) modules |
| IEC 61215-1-4: 2021/ IS 14286-1-4: 2023 | Terrestrial photovoltaic (PV) modules - Design qualification and type approval - Part 1-4: Special requirements for testing of thin-film Cu (In,Ga)(S,Se) ₂ based photovoltaic (PV) modules |
| IS/IEC 61730- 1:2023 | Photovoltaic (PV) module safety qualification - Part 1: Requirements for construction |
| IS/IEC 61730- 1:2023 | Photovoltaic (PV) module safety qualification - Part 2: Requirements for testing |
| IEC 61701:2020 | Salt mist corrosion testing of photovoltaic (PV) modules |
| IEC 61853-1: 2011 | Photovoltaic (PV) module performance testing and energy rating - Part 1: Irradiance and temperature performance measurements and power rating |

| | |
|---|--|
| IEC 61853-2: 2016 (spectral response only for solar cell or representative module) | Photovoltaic (PV) module performance testing and energy rating - Part 2: Spectral responsivity, incidence angle and module operating temperature measurements. |
| IEC 61853-3:2018 | Photovoltaic (PV) module performance testing and energy rating - Part 3: Energy rating of PV modules. |
| IEC 61853-4:2018 | Photovoltaic (PV) module performance testing and energy rating - Part 4: Standard reference climatic profiles. |
| IEC TS 62804-1:2015 | Photovoltaic (PV) modules - Test methods for the detection of potential-induced degradation - Part 1: Crystalline silicon |
| IEC TS 60904-1-2:2024 | Photovoltaic devices - Part 1-2: Measurement of current-voltage characteristics of bifacial photovoltaic (PV) devices |
| IEC 60904 | Reference Module calibration: c-Si reference module calibration up to the size 700 Wp |
| In-house test procedure | Testing of PV Module cleaning devices as per Test procedure developed by NISE |
| IEC 60904-9: 2020 | Solar simulator characterization/calibration |
| IEC TS 63342:2022 | C-Si photovoltaic (PV) modules - Light and elevated temperature induced degradation (LETID) test - Detection |
| IEC 63202-1:2019 (module also) | Photovoltaic cells - Part 1: Measurement of light-induced degradation of crystalline silicon photovoltaic cells |
| IEC TS 62782:2016 | Photovoltaic (PV) modules - Cyclic (dynamic) mechanical load testing |
| In-house test procedure | Testing as per customer requirement for different products related to solar PV: Nano-coating, Quantum boost device |
| In-house test procedure | Long term field exposure test of PV modules |
| In-house test procedure | Qualification plus testing, Bankability testing of PV module in the lab as per customer requirement |

Question (b) The manner in which NISE supports domestic solar manufacturing under the PLI scheme through BIS-compliant testing and certification of emerging solar technologies;

Reply to (b):

Solar Energy Corporation of India (SECI) is the implementing agency for Setting up Manufacturing Capacities for High Efficiency Solar PV Modules in India under the Production Linked Incentive (PLI) Scheme (Tranche-II). NISE extends technical support to SECI for qualitative & testing requirements under the PLI Scheme as required for disbursement of PLI. In this aspect, the role of NISE includes conducting commissioning checks and throughput assessment at the manufacturing facilities, as well as testing of module efficiency and temperature coefficient as per relevant BIS standards.

Question (d) The details of NISE's workforce development initiatives, including the number of Suryamitras trained so far.

Reply to (d):

Workforce Development Initiatives of NISE are detailed below

1. Suryamitra Skill Development Programme:

Launched in 2015, the Suryamitra Skill Development Programme is a flagship initiative of the Ministry of New and Renewable Energy (MNRE), designed to develop a skilled workforce for the installation, operation, commissioning, and maintenance of solar power projects. The programme plays a key role in supporting India's goal of achieving 280 GW of solar power capacity by 2030.

MNRE has appointed the National Institute of Solar Energy (NISE) as the nodal agency for coordinating and implementing the programme through a nationwide network of Empanelled Training Centres (ETCs).

2. Skilling Programmes under the Capacity Building Component of PM-Surya Ghar: Muft Bijli Yojana

To address the growing demand for a skilled solar workforce, NISE has developed three specialized Upskilling/Reskilling training modules, which are being implemented through the Suryamitra Empanelled Training Centres.:

- I. Solar PV Installer – 60 hours (7 days)**
- II. Rooftop Solar Supervisor – 32 hours (4 days)**
- III. On-the-Job Training (OJT) for Trained Installers/Suryamitras – 40 hours (5 days)**

Details of Suryamitras Trained.

| Sl. No. | State | Total No. of Suryamitra Trained |
|----------------|----------------------------------|--|
| 1 | Andaman and Nicobar Islands (UT) | 0 |
| 2 | Andhra Pradesh | 2299 |

Rajya Sabha Question No. 308 (Dy. No. 430) to be put up for 22.07.2025

Inputs from National Institute of Solar Energy (NISE),
Control Organization: Ministry of New and Renewable Energy (MNRE)

Question (c) The details of the efforts being made towards making available small scale renewables, such as solar dryers, small horticulture projects, small refrigerators, street lights etc. to the general public

Reply to (c):

NISE has worked on the development of small scale renewable technologies such as solar cold storage and solar dryers for decentralized applications. NISE has carried out the installation of 3 pilot solar cold storage units, following which more than 100 units have been installed by industry across India. To accelerate the deployment of solar cold storage solutions, MNRE has formulated specifications for solar cold storage units with capacities of 2, 5, 10, and 20 metric tonnes. These specifications were published in February 2025.

Additionally, around 310 solar dryer units have been installed by NISE in the Leh and Kargil regions, with support from the Horticulture Department of Ladakh.

PROVISIONALLY ADMITTED QUESTION FOR THE RAJYA SABHA

Starred /Unstarred Diary No.-- U676

- (a) what measures are being taken to ensure that the growth of the renewable energy sector leads to sustainable employment opportunities, particularly for youth and women;

Skill Development and Training Initiatives

1. Suryamitra Skill Development Programme:

Launched in 2015, the Suryamitra Skill Development Programme is a flagship initiative of the Ministry of New and Renewable Energy (MNRE), designed to develop a skilled workforce for the installation, operation, commissioning, and maintenance of solar power projects. The programme plays a key role in supporting India's goal of achieving 280 GW of solar power capacity by 2030.

MNRE has appointed the National Institute of Solar Energy (NISE) as the nodal agency for coordinating and implementing the programme through a nationwide network of Empanelled Training Centres (ETCs).

2. Skilling Programmes under the Capacity Building Component of PM-Surya Ghar: Muft Bijli Yojana

To address the growing demand for a skilled solar workforce, NISE has developed three specialized Upskilling/Reskilling training modules, which are being implementing through the Suryamitra Empanelled Training Centres.:

- I. Solar PV Installer – 60 hours (7 days)**
- II. Rooftop Solar Supervisor – 32 hours (4 days)**
- III. On-the-Job Training (OJT) for Trained Installers/Suryamitras – 40 hours (5 days)**

Inclusion of Women and Youth:

NISE also guides Empanelled Training Centres in the selection of candidates for training, with a strong focus on promoting the participation of rural youth, Scheduled Castes (SC), Scheduled Tribes (ST), and women, to ensure inclusive and equitable skill development in the renewable energy sector.

(b) details of the employment generated by new and renewable energy sector in the last five years, state-wise;

Details of Employment Generated by NISE through the Suryamitra Skill Development Programme.

PROVISIONALY ADMITTED QUESTION FOR THE RAJYA SABHA

Starred /Unstarred Diary No.-- U1815

Measure for Growth of the renewable energy sector leads to sustainable employment Opportunities

(a) what measures are being taken to ensure that the growth of the renewable energy sector leads to sustainable employment opportunities, particularly for youth and women;

NISE is implementing the following training programs sanctioned by MNRE.

1. Suryamitra Skill Development Programme (Solar PV Installer)

The Ministry of New and Renewable Energy (MNRE) has entrusted the National Institute of Solar Energy (NISE) with the responsibility of coordinating and implementing the Suryamitra Skill Development Programme through Empanelled Training Centres for imparting Suryamitra training programme throughout the India.

This strategic collaboration ensures the systematic and effective training of technicians to support India's expanding solar energy sector.

Achievements of the Suryamitra Programme (Till March 31, 2024):

•**Total Trained Suryamitras:** 56,507 individuals have successfully completed the training program.

•**Placement Success:** Of these, 26,967 Suryamitras have secured employment in the solar energy sector, showcasing the program's impact on workforce development and job creation.

By decentralizing Training Centers, the program has reached rural and semi-urban areas, enabling local communities to participate in the renewable energy transition. With a strong foundation, the Suryamitra program, currently operating across 30 states (Annexure I), aims to achieve its skilling target of 12,800 individuals for FY 2024-25. This initiative is set to play a pivotal role in supporting India's ambitious renewable energy goals, including achieving 280 GW of solar power capacity by 2030 and meeting its net-zero commitments.

2. Varunmitra Skill Development Programme (Solar Water Pumping Training)

Solar PV water pumping systems are a key application of solar energy, addressing irrigation needs sustainably and efficiently. Under the PM-KUSUM scheme, the government aims to incentivize farmers for transition to solar-powered water pumps for irrigation, reducing dependence on conventional fuels. However, the installation, commissioning, and maintenance of these systems require a skilled workforce, leading to the establishment of the Varunmitra Programme.

The Varunmitra Programme is designed to:

•Train individuals in the design, installation, and commissioning of solar water pumping systems.

- Provide skills for operation, safety, troubleshooting, and maintenance of these systems.
- Build a pool of skilled technicians to support the rapid rollout of solar water pumps under PM-KUSUM.

For FY 2024-25, the programme has set a skilling target of 510 individuals, contributing to the manpower needed for the increasing demand for solar water pumps.

Achievements of the Varunmitra Programme (Till Dec 31, 2024)

Total Trained Varunmitras: 1,266 individuals have successfully completed the training program.

Nationwide Reach: A network of training centers and partners ensures regional inclusivity and widens Future Targets

3. PM Surya Ghar: Muft Bijli Yojana – Empowering Residential Solar Adoption

The Government of India's approval of the PM Surya Ghar: Muft Bijli Yojana on February 29, 2024, marks a significant milestone in promoting solar rooftop installations in the residential sector. With an ambitious budget of ₹75,021 crore, the scheme aims to:

- **Boost Solar Rooftop Capacity:** Increase the share of rooftop solar systems in India's renewable energy portfolio.
- **Empower Households:** Enable residential households to generate their own electricity and reduce dependency on grid power, fostering energy independence.

To support the ambitious goals of PM Surya Ghar: Muft Bijli Yojana and address the demand for a skilled workforce, the National Institute of Solar Energy (NISE) developed and proposed training modules. These were officially approved by the Ministry of New and Renewable Energy (MNRE) on October 9, 2024, and implementation is now underway.

Training Modules Approved by MNRE

i. Solar PV Installers

Target: 20,000 candidates

Objective: Train individuals in the installation of solar PV systems, focusing on safety, efficiency, and quality.

ii. Rooftop Solar Supervisors

Target: 10,000 candidates

Objective: Equip supervisors with advanced knowledge for overseeing rooftop solar installations, including project management, troubleshooting, and compliance.

iii. On-the-Job Training (OJT) for Trained Installers/Suryamitras

Target: 25,000 candidates

Objective: Provide practical, hands-on experience to existing trained personnel, enhancing their skills for real-world challenges.

Implementation Plan

NISE conducted a Master Trainers Training Programme on Solar PV Installation for faculty members of National Skill Training Institutes (NSTI) from June 24-25, 2024. This marked the foundational training programme under the PM Surya Ghar - Muft Bijli Yojana scheme. Allotment letters were issued to Training Centers with the goal of training a total of 55,000 candidates, in alignment with the MNRE's targets for workforce readiness in the solar rooftop sector. This initiative aims to cover all levels of expertise, from installers to supervisors, ensuring widespread access, regional inclusivity, and a skilled workforce across the country.

(b) Details of the employment generated by New and Renewable Energy sector in the last five years, state wise

| Sl. No. | State | Total No. of Suryamitra | Total No. of Placed |

PROVISIONALLY ADMITTED QUESTION FOR THE RAJYA SABHA

Starred /Unstarred Diary no. U2388

Employment generation in renewable energy sector

(a) skill development schemes linked to RE sector;

NISE Skill Development Initiatives in the Renewable Energy Sector

The National Institute of Solar Energy (NISE) is actively implementing the following skill development schemes aligned with the renewable energy sector:

1. Suryamitra Skill Development Programme

Launched in 2015, the Suryamitra Skill Development Programme is a flagship initiative of the Ministry of New and Renewable Energy (MNRE), aimed at creating a skilled workforce for the installation, commissioning, operation, and maintenance of solar power systems. The programme significantly contributes to India's target of achieving 280 GW of solar power capacity by 2030.

MNRE has designated NISE as the nodal agency for the implementation and coordination of the programme across the country, facilitated through a network of Empanelled Training Centres (TCs).

Note: As of now, employment opportunities have been provided to **30,408 candidates** who have successfully completed training and certification under the Suryamitra Skill Development Programme.

2. Skilling Programmes under the Capacity Building Component of PM-Surya Ghar: Muft Bijli Yojana

To meet the rising demand for a skilled solar workforce, NISE has introduced three specialized upskilling/reskilling training modules. These are being implemented through the existing Suryamitra Empanelled Training Centres:

- **Solar PV Installer** – 60 hours (7 days)
- **Rooftop Solar Supervisor** – 32 hours (4 days)
- **On-the-Job Training (OJT)** for trained installers/Suryamitras – 40 hours (5 days)

These targeted training modules are designed to enhance the capabilities of existing professionals and support the rapid expansion of rooftop solar projects under the PM-Surya Ghar initiative.

Provisionally admitted Question Dy.No.U2450 (2).pdf (312 kB)

PROVISIONALLY ADMITTED QUESTION FOR THE RAJYA SABHA

Starred /Unstarred Diary no. U2450

- (a) The detailed data on the number of beneficiaries trained under the Suryamitra Skill Development Programme in 2024.**

1285 beneficiaries trained under the Suryamitra Skill Development Programme in 2024

- (b) The detailed data on the distribution of training centres established under the programme in 2024 and their outreach in rural areas;**

To skill 12,800 individuals under the Suryamitra Skill Development Programme, 427 training centres have been strategically allotted across 30 states in the country. The list of these decentralized training centres is provided in Annexure I. By decentralizing the training infrastructure, the program has effectively extended its reach to rural and semi-urban areas (Z-category cities), fostering grassroots participation in the clean energy transition.

Inclusion of Women and Rural Youth:

NISE actively guides training centres in the selection of candidates, with a strong focus on promoting the inclusion of rural youth, women, and individuals from Scheduled Castes (SC) and Scheduled Tribes (ST). This inclusive strategy ensures equitable access to skill development opportunities and contributes to building a diverse and representative workforce in the renewable energy sector.

- (c) The detailed data of the investments made under the Programme in 2024 in comparison to previous years;**

An investment of ₹18,25,49,292/- was made under the Suryamitra Skill Development Programme in 2024 towards the payment of 5,516 successfully trained and certified Suryamitras.

Similarly, in 2023, an investment of ₹3,46,03,831/- was made for the payment of 1,491 trained and certified Suryamitras under the same programme.

- (d) Whether there has been any advancement or update made to the Suryamitra Mobile Application in 2024, and if so, the details thereof?**

No.

Subject: Urgent: Parliament Question - Request for inputs for provisionally admitted Rajya Sabha Q (Adv. Dy. No. U2487) for 09.12.2025

Sir,

The undersigned is directed to request the National Institute of Solar Energy (NISE), Solar Energy Corporation of India Ltd (SECI) and Indian Renewable Energy Development Agency Ltd (IREDA) to provide inputs on the Provisionally admitted question for the Rajya Sabha having Advanced Diary No. **U2487** for answer on **09.12.2025**, titled "**Solar Module Overcapacity and Renewable Energy Sector**". The aforementioned Parliament Questions are reiterated below:

Will the Minister of New and Renewable Energy be pleased to state:

- a)** Is the Government aware that Indias solar module manufacturing capacity is far exceeding the anticipated annual solar installation demand of only 45050 GW. if so, any assessment made?
- b)** Measures taken to enhance export competitiveness of Indian solar modules, with regard to global price crashes, possible dumping from China?
- c)** Is it a fact nearly 25-30% of the approved 110 GW module capacity is unable to adapt to new technologies (ToPCon and bifacial modules)?
- d)** Under the PLI Scheme for high-efficiency solar PV modules, how many manufacturing units have actually transitioned to advanced technologies? Details of utilisation of funds?

Accordingly, **NISE** is requested to kindly submit the inputs for **part (c)**, While **SECI** and **IREDA** is requested to submit input for **parts (d)**, no later than 26.11.2025 (Wednesday).

RSUQ_Adv. Dy. No. U2487_09.12.2025_NISE.docx (12.4 kB)

Rajya Sabha Provisionally Admitted Question Adv. Dy. No. U2487 due for
09.12.2025

Inputs from National Institute of Solar Energy (NISE),
Control Organization: Ministry of New and Renewable Energy (MNRE)

Q c) Is it a fact nearly 25-30% of the approved 110 GW module capacity is unable to adapt to new technologies (ToPCon and bifacial modules)?

Input from NISE:

As per the latest ALMM list released on 25.11.2025, the ALMM enlisted PV module manufacturing capacity in India stands at 1,21,682 MW/year with a total of 130 manufacturing plants. Out of this, 40 manufacturing plants with a total manufacturing capacity of 6,041 MW/year are manufacturing Mono C-Si/ Mono C-Si PERC modules. This is about 5% of the full ALMM enlisted capacity.

Rest of the manufacturing capacity comprises production lines already manufacturing newer technologies, including Bifacial Mono C-Si PERC, n-type Topcon, Bifacial n-type Topcon, HJT, Bifacial HJT and thin film CdTe.

Sir/Madam,

I am directed to reproduce Rajya Sabha Unstarred Question Diary no. 5409 due for 05.08.2025. It is requested to kindly provide the reply latest by 29.07.2025.

Addressing seasonal variations and reduced solar energy generation in Konkan

- (a) whether the Ministry has assessed the impact of the extended monsoon and overcast conditions in Konkan on limiting solar power generation to 8-9 months as well as on the effectiveness of solar pumps and rooftop schemes;
- (b) whether hybrid systems, grid integration or seasonal storage is being encouraged to reorient solar energy policies for rain-prone regions like Konkan; and
- (c) whether the Ministry will undertake region-specific studies and pilot projects to explore feasibility of solar power keeping in view the climate of Konkan region?

Regards...

Ms. Seema Srivastava,
Under Secretary,
Ministry of New and Renewable Energy,
Atal Akashay Urja Bhawan.

Ma'am/Sir,

Please find attached herewith the Provisionally Admitted Question for the Rajya Sabha on 22.07.2025 on the "The Number and total value of MoUs signed in the renewable energy sector for the North Eastern Region and their expected impact on the employment and development". The same is reproduced as below:

(i) the number and total value of MOUs signed in the renewable energy sector for the North Eastern Region and their expected impact on employment and development;

- (ii) the percentage of the Ministry's annual scheme budget earmarked exclusively for the North Eastern Region and the enhanced Central Financial Assistance provided under the PM Surya Ghar Muft Bijli Yojaya and PM-KUSUM scheme for this region;
- (iii) the details of renewable energy projects recently commissioned or under development in the North Eastern Region;
- (iv) the number of individuals trained under programs like Suryamitra, Varunmitra, and Jal Urjmitra in the region?

2. You are requested to provide the inputs pertaining to your division at the earliest.

Thanks and Regards,

Rajkumar Bhawariya

RSQ_Dy. No. S675,U276_22.07.2025_NISE.docx (19.9 kB)

Rajya Sabha Question Dy. No. S675, U276 to be put up for 22.07.2025

Inputs from National Institute of Solar Energy (NISE),
Control Organization: Ministry of New and Renewable Energy (MNRE)

Question (iv) The number of individuals trained under programs like Suryamitra, Varunmitra, and Jal Urjamitra in the region?

Reply to (iv):

Details of individuals trained in North Eastern Region under Suryamitra and Varunmitra programs are given below.

1. Suryamitra Skill Development Programme:

| Sl. No. | State | Total No. of Suryamitra Trained |
|----------------|-------------------------|--|
| 1 | Arunachal Pradesh (NER) | 150 |
| 2 | Assam (NER) | 1710 |
| 3 | Manipur (NER) | 150 |
| 4 | Meghalaya (NER) | 60 |
| 5 | Mizoram (NER) | 0 |
| 6 | Nagaland (NER) | 60 |
| 7 | Sikkim (NER) | 0 |
| 8 | Tripura (NER) | 208 |
| Total: | | 2338 |

2. Varunmitra Skill Development Programme:

| Sl. No. | State | Total No. of Suryamitra Trained |
|----------------|--------------|--|
| 1 | Assam (NER) | 71 |
| Total | | 71 |
